## A New World

When you paddle, it's impossible not to briefly escape reality. For paddlers, this escape is essential, offering a chance to disconnect and reconnect with nature. And for those new to paddling, there's no better way to dive into the world of adventure and find that sense of release.

In a world undergoing dramatic changes, these breaks become even more vital. Some changes bring progress, but many feel overwhelming—economic uncertainty, geopolitical challenges, environmental issues, and the rapid evolution of technology. In moments like these, getting out on the water provides a necessary mental reprieve, allowing us to reset and regain clarity.

The paddlesports industry, like many others, has faced various challenges over the past two years. The post-COVID economy is different—more complex, and in many ways, tougher. Businesses are adapting to new consumer behaviors, navigating supply chain struggles, and adjusting to a rapidly changing market.

Yet, despite these hurdles, the industry is thriving. More people than ever are discovering the joy of being on the water, and the variety of watercraft available has exploded. From traditional canoes to foil boards, sea kayaks to inflatable crafts, whitewater to fishing boats, the sport is more diverse and accessible than ever before. The demand for high-quality, innovative gear is on the rise.

At the same time, older technologies like composites, wood, and folding boats are making a comeback, offering lighter, stronger, and more durable

designs. These innovations are reshaping the paddling experience, making the sport even more accessible and attractive to a broader audience.

Sustainability is no longer a buzzword—it's now a core focus in the industry. Brands are rethinking materials, streamlining production, and committing to greener practices. This is a positive trend, ensuring a more sustainable future for both our sport and our planet.

Looking ahead, innovation will keep driving paddlesports forward. New materials and smarter designs will make gear more efficient and better suited to paddlers' needs. Technologies like AI will likely influence everything from boat design to manufacturing, improving performance, accessibility, and so much more we can not yet imagine.

However, we must also acknowledge the growing impact of the current climate crisis. Global warming is accelerating, and the places we paddle are changing before our eyes. Recent events are a stark reminder of why staying connected to nature matters now more than ever.

Amidst all this uncertainty, paddling remains one of the best ways to find balance. In times of change, paddlesports offer a chance to escape, enjoy nature, and momentarily forget the world's problems. As you explore the 2025 Paddler's Guide, we hope you find new ways to enjoy every stroke and find peace on the water, even in a rapidly changing world.

### The Team at Kayak Session Publishing

The 2025 Paddler's Guide is a special edition of Kayak Session Magazine (0725K83428 - ISSN 1638-0177) edited by Kayak Session Publishing. **Publisher:** Philippe Doux - **Buyers Guide Magazine Editor:** Lucien Schreiber - **Buyers Guide Product editor:** Sandra De Ugarle - **Assistant to the editor:** Jean Filtamaire - **Art Director:** Jean-François Pascal - **Contributing Photographers:** Andrew Kellett, David Sodomka, Neil-Mark Thomas, Caleb-Jones, Michael-Henry - **Advertising & Editorial office:** 5 Quai des étroits, 69005 Lyon, France. - [Info@kayaksession.com](mailto:Info@kayaksession.com) (Free supplement to Kayak Session #93 - cannot be sold separately)

**Warning:** The activities shown in Kayak Session carry a risk of personal injury or death. Whitewater kayaking, and others outdoor activities are inherently dangerous. The owners, management, and staff of Kayak Session recommend you do not participate in these activities without first seeking qualified instruction and/or guidance, understanding the risks involved, and personally assuming all responsibility for those risks. **Disclaimer:** Opinions expressed in this magazine are not necessarily those of the Editor or Publishers. References to waters do not necessarily imply that access or passage is legally permitted or that they are safe in all conditions. The editor and/or publishers cannot be held responsible for any omissions of references to hazards from notes on these waters. ## KAYAK SESSION MAGAZINE

The International Whitewater Magazine

"If a photo speaks a thousand words, then Kayak Session is an encyclopedia..."

Released quarterly for the past nine years, Kayak Session has established itself as the prime resource for information on whitewater kayaking worldwide.

## PADDLE WORLD MAGAZINE

The International Paddle Culture Magazine

Based on the same concept as Kayak Session, Paddle World is an annual issue magazine released every spring covering literally all paddlesports—sea kayaking, stand-up paddling, canoeing, recreational boating, kayak fishing, and more.

## STAND UP PADDLE WORLD MAGAZINE

An annual special issue dedicated to Stand Up Paddling

This is the newest water sport that has taken the world by storm. SUP World Mag is an annual special issue that started in the spring of 2010 that covers nearly everything SUP has to offer; leisure, fitness, racing, family fun, touring, distance paddling.

# **CIVIL SECURITY: A GROWING MARKET FOR PADDLESPORTS MANUFACTURERS**

**As natural disasters intensify, paddlesports manufacturers are seizing opportunities to meet the growing demand for civil security gear, benefiting both professional responders and recreational paddlers.**

Catastrophes such as floods, mudslides, and hurricanes have become all too common, often appearing on our screens and, increasingly, in places familiar to paddlers. The floods in Green River Cove, USA, following Hurricane Helene in October 2024, and the catastrophic floods in Valencia, Spain, only a couple of weeks later, are vivid reminders of the increasing frequency and severity of such events, and the urgency of the current climate crisis. As these events multiply, the demand for specialized rescue equipment has surged. Paddlers can even spot rescuers using gear from familiar brands in recent reports and news. While this demand stems from tragic circumstances, it creates a significant opportunity for paddlesports manufacturers.

Rescue services rely on a wide range of equipment familiar to paddlers: drysuits, PFDs, ropes, quick-release belts, water shoes, gloves... the list continues. Beyond personal protective equipment, rescuers may also use compact, inflatable evacuation sleds, rescue rafts, boats, or paddleboards to safely navigate debris-filled or shallow floodwaters. These tools have become indispensable for evacuation in any environment where rescue services operate, from urban flood zones to challenging and remote waterways. Although much of this gear resembles recreational

equipment, its technical specifications can be far more demanding. With rising demand and increasingly specific requirements, manufacturers are adapting their expertise, products, and skills to develop new product lines that address the unique challenges of civil security operations.

The civil security gear market has seen remarkable growth in recent years. Lawrence Harris of WRS International notes that while his company has been producing rescue boats and equipment since 2015, the recent spike in demand reflects an urgent need for innovative solutions, especially for personal protective equipment. This trend seems to span the industry, with manufacturers recognizing both the necessity and the opportunity to invest in better-adapted, high-performance rescue gear.

For instance, images from the Valencia floods often show responders in full protective gear but wearing neoprene wetsuits. Marco Babuin of Sandiline reminds us that these are strongly discouraged for flood situations, as neoprene offers little protection against bacteria, hydrocarbons, and pathogens in contaminated water, which can lead to long-term health impacts. Instead, drysuits provide far superior protection against biohazards and harsh environments. The demand for high-quality rescue-specific drysuits is expected to increase, driven not only by the increasing challenges posed by natural disasters but also by greater awareness of safe practices and improved funding. Many rescue organizations can now afford full lines of drysuits thanks to government grants and organizations spending in the sector—trends that gained momentum following Covid and have only continued to grow. Manufacturers are working in tandem with rescue professionals to better understand their unique needs and the often-merciless conditions rescuers face. Manufacturers must meet rigorous standards and perform extensive testing, often far beyond what leisure equipment requires. As Guillaume Barbier of Aquadesign explains, "This sector brings together passionate individuals often working in extreme conditions, testing equipment designed to meet highly specific requirements. These field reports inspire many ideas and technical advances."

Indeed, beyond benefiting rescue professionals, these innovations also positively impact recreational paddlesports. Technologies developed for civil security often translate into better product design, quality, and performance applicable across all sectors. Innovations in inflatable technology are particularly notable, as they cater to the remote access and ease of use needed by professional response teams, many of whom have limited training in whitewater environments. While packrafts

**"LOOKING AHEAD, THE GROWING  
DEMAND FOR ADAPTED EQUIPMENT FROM  
CIVIL SECURITY PROMISES CONTINUED  
INNOVATION AND OPPORTUNITY. IT'S A  
TRUE WIN-WIN FOR THE INDUSTRY."**

**“WITH RISING DEMAND AND INCREASINGLY SPECIFIC REQUIREMENTS, MANUFACTURERS ARE ADAPTING THEIR EXPERTISE, PRODUCTS, AND SKILLS TO DEVELOP NEW PRODUCT LINES THAT ADDRESS THE UNIQUE CHALLENGES OF CIVIL SECURITY OPERATIONS.”**

have gained popularity for the access they open to outdoor sports enthusiasts, specialized teams also benefit from advancements in their design and durability. Broader innovations such as GPS technologies further enhance safety and navigation, even outside paddlesports.

Manufacturers frequently test their products in partnership with civil security teams, simulating real-world flood conditions in controlled environments like man-made whitewater courses to ensure optimal performance. In turn, these courses have become valuable training and testing centers. Extreme whitewater kayakers can also offer valuable insights. Their first-hand experience in unpredictable, high-risk environments, far beyond the controlled settings of artificial courses, can drive innovations that make rescue gear more adaptable to a broader range of conditions. By incorporating feedback from both professional responders and experienced paddlers, manufacturers can further enhance the safety, functionality, and versatility of their equipment.

Looking ahead, the growing demand for adapted equipment from civil security promises continued innovation and opportunity. It's a true win-win for the industry. Equipment designed for civil security aids professionals and also enhances recreational paddling experiences, keeping everyone safe on the water.

However, even the best gear in the world cannot replace proper training. Efficient rescues depend on the knowledge and preparedness of the responders using the equipment. This is where the paddlesports industry can play another crucial role: providing training and learning opportunities to ensure both safety and ef-

fectiveness in rescue operations, a trend is already underway, as seen in the rapid development of training courses like Rescue 3, which are taught by whitewater professionals worldwide to civil security organizations. This growing emphasis on training is also good news for the industry, reinforcing the connection between paddlesports expertise and real-world rescue operations.

# BEYOND THE GREENWASHING: HOW TO MAKE INFORMED CHOICES WHEN BUYING PADDLESPORT GEAR

**Brands are making real progress in reducing their environmental impact, tackling sustainability from multiple angles—better materials, smarter design, recycling initiatives, energy-efficient production, and increased transparency. But for consumers, it's easy to get lost in a sea of eco-labels, bold claims, and overwhelming buzzwords. The outdoor and paddlesports industries are under pressure to clean up their act, and while most manufacturers are working towards better practices, sustainability is never a simple, clear-cut issue. There is no such thing as a “perfectly sustainable” product; every choice comes with trade-offs. This article serves as a tentative guide to looking beyond marketing and making more informed choices about environmental sustainability in paddlesports gear.**

Brands can direct their sustainability efforts towards many areas: recycling, circularity, packaging, supply chains, harmful chemicals, reparability, and end-of-life solutions, to name a few. With so many factors at play, it's easy to get lost in trying to determine what really matters for the environment. In reality, every step towards sustainability is a good step. No brand can be perfect, but understanding why a company prioritizes certain aspects over others is key to making informed choices.

## Transparency

A good place to start is by looking at how a brand presents its sustainability commitments. Most manufacturers now have a dedicated section on their website or their mission statement, but how easy is it to find out more about their commitments and their impact? Try searching for it now. A brand that is transparent and specific about its efforts is far more likely to be working towards meaningful sustainability rather than just using it as a selling point. That said, not all brands have fully communicated about their efforts yet. Transparency is key, but some companies may be making real progress behind the scenes without having put it into words.

Finding that dedicated section won't tell you everything, but it will give you a good first impression of what the brand is doing and why it is focusing on those areas. Take a closer look: is the text full of vague promises, or does it provide clear facts, specific numbers, and measurable actions? Does sustainability feel like a genuine commitment, or just a marketing buzzword? One of the biggest challenges in assessing sustainability is “greenwashing,” when a brand highlights only the most eco-friendly aspects of a product while ignoring the rest. It's easy to showcase only the positives while glossing over the bigger picture. So look for concrete steps rather than elusive statements, stay curious, and ask questions.

## Recycling or greenwashing?

Recycled materials provide a good example of why details matter. First, it's important to differentiate between recycled and recyclable plastic. The former means the product is made from plastic that has already served another purpose, while the latter simply indicates that the product can be recycled—but doesn't guarantee that it will be.

In kayak manufacturing, for example, does the brand clearly state what percentage of the product is made from recycled content? As Diego Zanga of Dragorossi and Rainbow Kayaks points out, recycled plastic can come from three sources: post-production waste (offcuts like cockpit trims), post-consumer waste (materials that have been used and discarded), and general plastic waste. The source matters because plastic from post-production or post-consumer waste can be used in much higher percentages (up to 100%), while plastic from general waste is typically limited to around 30% before mechanical properties are affected, requiring virgin plastic to make up the difference.

So, how does the recycling process actually work? And where does the material come from? To grind plastic into powder, a significant amount of material is needed. Does the brand actively collect and recycle old kayaks and offcuts, or do they source pre-ground recycled plastic from external suppliers? What happens if that supply runs out? Again, transparency matters. If a claim feels incomplete, it's worth questioning what's left unsaid.

## The full life cycle

Looking at the full lifespan of a product is just as important as assessing how it's made. Does the company think beyond simply selling its products? Are they taking action to cover the entire life cycle of what they produce? Durability is one of the simplest and most effective ways to reduce waste. A truly sustainable product is one that lasts, and when it eventually wears out, it should be repairable. Some brands offer repair guides, take-back schemes, or buy-back programs for old gear. A quick test is to check how easy it is to find their return or repair page on their website. If it's buried or difficult to understand, repairs—and meaningful sustainability—may not be a real priority.

Beyond reparability, what happens when products eventually reach the end of their life? Brands that consider the entire lifespan of their products shouldn't be seen as expecting their gear to fail more often. Instead, they should be recognized for doing the right thing: investing extra time, money, and effort to ensure their

**“NO PRODUCT IS 100% SUSTAINABLE, BUT THAT DOESN'T MEAN WE SHOULD GIVE UP OR ASSUME ALL EFFORTS ARE MEANINGLESS. PROGRESS IS HAPPENING, AND THE INDUSTRY IS EVOLVING.”**

products have minimal environmental impact. An example is Peak PS, which won the 2024 Paddle Sports Show Sustainability Award for its Circular Ready Program. This initiative rethinks paddlesports gear by designing products for full recyclability, using materials and patterning that allow for easy deconstruction at the end of their lifespan.

At last year's Paddle Sports Show, various challenges of sustainability and circularity were brought into focus by Bob Timms of PGL. For the past two years, Timms has been running a conference at the show in collaboration with Kayak Session Publishing, bringing industry leaders together to discuss pressing environmental issues. What happens across the entire life cycle of a product? How can brands take greater responsibility? To address these questions, Timms, Jean-Yves Lapeyrere, founder of the European Confederation of Outdoor Employers, and the Paddle Sports Show have recently brought together a working group of manufacturers to develop better industry-wide solutions for recycling, upcycling, and reuse initiatives. Should companies invest in in-house systems to process waste, or rely on external services? How can products be brought back for recycling without increasing transport costs and emissions? How is paddlesports equipment currently disposed of, and what improvements can be made? These are the kinds of challenges that demand collective action. As part of this effort, Timms also introduced the idea of a

sustainability label, similar to B-Corp certification, to provide a structured framework for brands to implement their sustainability efforts more effectively.

#### **Everything matters**

Environmental sustainability in paddlesports spans everything from chemical use and transportation to packaging and end-of-life solutions. But sustainability isn't just about the environment; social and economic factors matter too. Prijon won the 2025 Paddle Sports Show Sustainability Award for its regional and eco-friendly approach—sourcing over 80% of components locally, generating renewable energy in-house, reducing transport emissions by manufacturing entirely in Germany and using recyclable, non-toxic materials as much as possible. Sustainability is a broad concept, and no brand excels in every area, so here's a non-exhaustive list of additional questions:

Does the company use PFAS or other harmful chemicals? Is it working on safer alternatives? Does it follow international or community standards? How complex is its supply chain, and how much transport does it require? Does it overuse plastic packaging? Does it ensure fair wages and safe workplaces? Does it support employee ownership? Does it help finance conservation efforts?

The reality is that no brand is perfect. At least not yet. No product is 100% sustainable, but that doesn't mean we should give up or assume all efforts are meaningless. Progress is happening, and the industry is evolving. Consumers have a role to play too. The key is to stay informed, look beyond the marketing, and make choices that align with what we believe truly matters. The signals we send shape the industry. We have the power to say, “I don't mind if my gear isn't individually wrapped in plastic,” or “I'd rather buy a product that lasts longer, even if it costs a bit more.” Every decision, whether from consumers or the brands leading the way, contributes to the change we want to see and helps make paddlesports as sustainable as possible.

# BREAKING THE MOLD: THE RESURGENCE OF COMPOSITE BOATS

**Once the standard for crafting competition and leisure kayaks, composites have spent over 35 years overshadowed by the rise of plastic boats. Yet, in the past decade, a resurgence is underway, with new players entering the market and some brands focusing exclusively on composite designs. More and more boutique-style brands are emerging, often small, family-run businesses emphasizing artisanry, authenticity, and passion-driven design. Are we witnessing a turning point in kayaking, or will plastic continue to dominate the market?**

When we think of composite boats, we often associate them with high-performance and competitive paddling. Carbon and fiberglass kayaks are renowned for their competitive advantages, being lighter and more responsive than their plastic counterparts. However, the benefits of composite boats extend far beyond the world of elite paddling. Their lightweight design makes them an excellent choice for paddlers looking to conserve energy, whether carrying the boat or paddling long distances. This reduced weight enhances ac-

cessibility, making the sport more inclusive for children, older paddlers, or those with disabilities, for whom shedding a few fewer kilos can make a significant difference. Stephen Wright, owner and boat builder at Dreamboats Kayaks, shares: "Composite boats are so fun! Lighter, stiffer boats are a dream to paddle. For someone who wants to maximize their fun while playboating or paddle on deeper rivers, there's nothing like the feel of a carbon composite boat."

The advantages carbon boats offer might help attract new paddlers into kayaking, or encourage those who've stepped away from the sport to return. As Eric "EJ" Jackson highlighted at last year's Paddle Sports Show, many former paddlers are eager to return to the water. While they may still have old gear at home, it does not mean they want—or can—use it. Beyond social support like lessons or peer paddling groups, these paddlers need equipment suited to their current abilities. EJ believes carbon boats are key to removing these hurdles, making it easier for them to return to finding joy on the water self-sufficiently. These paddlers are looking for boats that they can paddle comfortably without fatigue and easily load onto their car without needing help. Composites are already well-established in some disciplines, like sea kayaking or canoeing. For example, composite sea kayaks have a solid presence in the leisure

market, with brands like P&H and Lettmann catering to this demand. However, in areas like whitewater kayaking or fishing, where EJ's Apex Watercraft is focusing, composites represent a largely untapped opportunity. Composite boats not only offer a unique experience on the water and improve accessibility, but they also provide unmatched opportunities for personalization. Manufacturers can customize features such as shape, volume, color, artwork, seat placement, and outfitting to meet the specific preferences and needs of indi-

vidual paddlers. Ed Skrzypkowski from Murky Waters highlights the flexibility of composite manufacturing, noting that almost 50% of the kayaks they produce have altered volume compared to the original plastic version. Guillaume Respaud of Guiguiprod also exemplifies this with his freestyle kayaks featuring stunning, one-of-a-kind artworks. This reflects the growing appeal of owning a boat that fits perfectly and stands out with its unique style.

**"COMPOSITE BOATS NOT ONLY OFFER A UNIQUE EXPERIENCE ON THE WATER AND IMPROVE ACCESSIBILITY, BUT THEY ALSO PROVIDE UNMATCHED OPPORTUNITIES FOR PERSONALIZATION."**

**So, where do composites stand today? Should we expect them to take over the plastic market?**

Before attempting to answer this question, it is worth remembering that composite materials once dominated the market long before plastic came into play. Early kayaks were crafted with wooden frames covered in waterproof canvas or

rubber, and by the 1950s, fiberglass emerged as a transformative material. It revolutionized production methods, making composite boats the standard until the introduction of roto-molded polyethylene a few decades later. But even today, plastic and carbon are not as far apart as they may seem. Many mass-produced plastic kayaks still begin as composite prototypes, allowing brands to refine their designs before large-scale plastic production.

Nevertheless, despite their many advantages, composite boats come with notable trade-offs. First, they are expensive. Their labor-intensive production process—each boat handcrafted in a mold with materials like carbon, Kevlar, and resin—significantly increases their cost, positioning them as premium products. Additionally, their lower resistance to impact makes them prone to cracking, especially in rocky rivers or during heavy use. Composite boats also require more maintenance, which can be a drawback.

When plastic boats were first introduced, they revolutionized whitewater paddling by allowing paddlers to go over rocks instead of needing to maneuver around them. Their ability to be mass-produced, stored more easily, and shipped with less concern made them a practical choice for a wide range of users. This is still the case today. Their affordability and durability enable clubs, leisure centers, and rental facilities to offer kayaks to a broad audience, which remains unrealistic with carbon boats. However, collaborations between brands, both recent and historic, demonstrate that there is still vast potential in blending the strengths of both plastic and carbon. First, plastic boats are frequently translated into carbon models, allowing brands to adapt their proven plastic shapes into high-performance composite versions. But those partnerships can also be reversed. Last year, Pyranha and Guiguirod teamed up to adapt Guigui's Helectron into a plastic model, making a high-performance freestyle shape more accessible. Similarly, Exo mass-produced Guigui's Helixir a few years earlier. These collaborations benefit both sides: small-scale carbon manufacturers can bring innovative designs to a broader market, while larger plastic brands can reduce R&D costs

**"MANY FORMER PADDLERS ARE EAGER TO RETURN TO THE WATER. WHILE THEY MAY STILL HAVE OLD GEAR AT HOME, IT DOES NOT MEAN THEY WANT—OR CAN—USE IT."**

and (re)explore niche markets without the risks of designing entirely new models. Hybrid designs that combine plastic and composite elements also provide another way to harness the advantages of both materials, hitting a balance between performance and cost-effectiveness. For example, carbon outfitting can reduce weight, improve rigidity, and allow for more customization without requiring a composite hull. With the inclusion of kayak cross in the Olympic Games, the adoption of carbon outfitting in whitewater designs is likely to grow, catering to the evolving needs of competitive and non-competitive paddlers alike. Last year, Zig Zag supplied many Olympic kayak cross boats with carbon outfitting, but those seats are also available for general purchase, making high-performance outfitting accessible to a wide range of paddlers.

The answer is clear: carbon boats are not expected to dominate the market anytime soon. Plastic kayaks, with their affordability, durability, and mass production, will remain the backbone of the sport, ensuring kayaking stays accessible to the widest range of paddlers. But composite boats can address needs that plastic production cannot yet fully

satisfy. By enabling lighter designs, they make the sport more accessible while enhancing competitive performance and offering personalized designs. At the same time, they create a premium niche market, encouraging a shift towards higher spending on quality equipment—a pattern well established in sports like skiing and cycling but not yet widespread in paddlesports. Though they may never replace plastic, innovation and collaboration in composite manufacturing are opening the sport to new paddlers and offering exciting ways to explore the water.

## **AFTER THE HYPE: WHY KAYAK MANUFACTURERS SHOULD PAY ATTENTION TO PADDLEBOARDING**

**After years of rapid growth, the stand-up paddleboarding market is slowing down. Some companies see this as the end of the boom, but demand isn't disappearing; SUP remains one of the easiest ways for newcomers to get into paddlesports. Rather than viewing this as a downturn, kayak manufacturers could see an opportunity. By applying their expertise to paddleboarding gear, they can not only expand their market reach but also strengthen their presence in the broader paddlesports industry.**

The SUP industry has seen significant fluctuations in recent years. After a period of rapid growth when it seemed like everyone was grabbing a board and hitting the water, the industry is now experiencing a serious slowdown. Manufacturers, even those with strong initial positions, are struggling with reduced demand, over-supply, and shrinking profit margins. SUP board manufacturers are not the only ones feeling the effects. Pete Astles of Peak PS explains, "The bubble seems to have burst in the SUP market. We are experiencing low sales volumes and little interest in SUP-specific products right now, despite developing some nice lines especially for the discipline." Astles suspects this is partly due to the boom through Covid, followed by the subsequent oversupply of inventory in the marketplace, and recent economic conditions. Yet, Astles remains optimistic. "Fingers crossed we'll see growth again soon."

Rather than seeing this as a reason to step away, traditional canoe and kayak manufacturers can recognize this shift as an opportunity to step in. The post-boom period is a chance for brands with a long-term vision to bring quality, safety, and innovation to the paddleboarding market, rather than competing in an oversaturated one.

One of the key reasons paddleboarding initially boomed is its accessibility. Unlike kayaking or canoeing, which require more equipment and technical skills, stand-up paddleboarding is easy to pick up. That same accessibility ensures SUP will continue to attract casual paddlers, fitness enthusiasts, and families looking for a simple way to get on the water. Notably, the fitness market, much like the rise of surf skiing, is expanding rapidly, offering a visually appealing and accessible way to stay active. For traditional paddlesports manufacturers, the current situation presents

**"TRADITIONAL PADDLESORTS BRANDS CAN POSITION THEMSELVES AS FULL-SERVICE PROVIDERS, OFFERING MULTIPLE ENTRY POINTS FOR NEWCOMERS AND RETAINING THEM AS THEY EXPLORE RELATED ACTIVITIES."**

an opportunity to expand into the SUP sector, and there are various reasons they should consider stepping in.

First, expanding into paddleboarding isn't a major leap. The skills required to produce SUP gear align closely with those already present in kayak and canoe manufacturing. Many materials, design principles, and production techniques overlap. Manufacturers can diversify their portfolio by offering SUP-specific gear or adapting existing lines, such as lifejackets, neoprene pants, or leashes.

Beyond adding another product to their lineup, manufacturers entering the SUP market can build a more interconnected product ecosystem. A consumer who starts with an entry-level paddleboard may later transition to a recreational kayak or touring canoe. Cross-promoting essential gear such as paddles, PFDs, and technical apparel can increase brand loyalty and encourage repeat sales. Once a brand establishes itself in the SUP sector, it creates a pathway for consumers to explore other paddlesports under the same brand umbrella.

Expanding into the SUP market also opens up new retail possibilities. Many lakeside and coastal shops primarily stock beginner-friendly watersports equipment, which may not include kayaks or canoes. By offering a SUP line, manufacturers can more

easily enter these spaces, establishing relationships with retailers, outfitters, and rental businesses. Retailers that previously focused on surfboards or casual boating equipment may be more inclined to stock kayaks, canoes, and apparel once they have a SUP line from the same brand.

Another compelling reason is safety. Many newcomers underestimate the importance of proper equipment, often seeing paddleboarding as a casual, no-gear-needed activity. By featuring PFDs in ads and developing SUP-specific safety gear, manufacturers can shift perceptions and encourage better practices. Paul Robertson of Palm Equipment explains, "Working closely with the [SUP] community has been both challenging and rewarding. We've used our expertise to develop better waist leash systems and a slimline PFD with an integrated chest belt. But it's not just about the gear—it's about spreading awareness, especially among beginners." By bringing their expertise from kayaking, manufacturers can help shape a culture that values safety, making SUP more sustainable in the long run.

Finally, consumer perception of paddlesports is shifting. While brands often categorize kayaking, canoeing, and stand-up paddleboarding as distinct disciplines, many consumers see them simply as different ways to get on the water. This merging of disciplines creates opportunities for cross-industry innovation and product diversification. Traditional paddlesports brands can position themselves as full-service providers, offering multiple entry points for newcomers and retaining them as they explore related activities. Diversification has to be strategic. A brand that tries to do everything risks spreading itself too thin. But every company can find something valuable to bring to the SUP market and, in turn, gain something from it.

While the SUP boom may be over, paddleboarding is far from fading. Its appeal remains strong, driven by accessibility and ease of use. The initial hype may have passed, but the potential remains—and those who recognize it now will be best positioned for the future.

# THE EVOLUTION OF WOMEN'S GEAR AND INCLUSIVITY IN PADDLESPORTS

**A few decades ago, women in paddlesports had to “make do”—squeezing into drysuits designed for men, battling oversized PFDs, and settling for paddles that didn't quite fit their grip. While women's-specific gear has existed for some time, brands now prioritize it more than ever. They're moving beyond the old “shrink it and pink it” approach and designing with women in mind, driven by a growing wave of female paddlers who demand better.**

Women's participation in outdoor sports has surged in the last decade, and paddling is no exception. This growth has driven the development of more women's-specific gear, creating a virtuous cycle where better equipment attracts more participants, which in turn pushes brands to innovate further.

As Palm Equipment puts it, everyone's experience on the water should be safe, fun, and comfortable, and achieving this requires gear that fits well, is functional,

and lasts. But has such equipment always been available to women, or have female paddlers had to adapt men's gear to fit their needs? For years, much of women's paddling gear was simply men's gear in smaller sizes, designed with little input from female paddlers. The “shrink it and pink it” approach often prioritized aesthetics over performance and fit.

An example of early innovation came in 1992 when Palm developed the S PFD for a female-led expedition in the Himalayas, featuring a lower profile and advanced safety elements tailored to women's bodies. Also around that time, in 1994, Kokatat introduced women's sizing and has since built an extensive line of paddling gear, moving beyond downsized men's patterns to designs tailored to female anatomy. Palm has likewise continued to expand its women's range, now offering a wide selection of gear designed for better fit and performance.

Brands now recognize that designing for women isn't just about resizing gear, but addressing fundamental differences in torso length, shoulder width, and hip-to-waist ratios. Pete Astles from Peak PS explains that after research showed unisex size grading didn't accommodate the diverse shapes of female paddlers, they adjusted proportions like arm and leg length to ensure a better fit.

Drysuits highlight a particularly long-standing issue in paddling gear. Entry and relief zips are a key functional difference between men's and women's designs. Today, brands offer more options than ever, from front and back entry zips to front and drop-seat relief zips. However, some combinations remain limited, forcing paddlers to choose between fit and function. For instance, women looking for front relief zips, or men seeking drop-seat relief zips, often have to turn to models designed for the other gender, compromising either comfort or practicality. While some brands are starting to offer new combinations that address these gaps, such options remain relatively uncommon.

Level Six recently took a more data-driven approach, launching a survey to address long-standing complaints about poor fit, particularly in drysuits. With a team that is 50% women, including a majority of female designers, they wanted concrete data to drive improvements in their collection. The results reinforced what paddlers had long reported: fit issues are widespread, and industry-wide change is needed. “For any brands out there, this [survey] is well worth doing,” says Stig Larsson.

To design inclusive gear, brands should listen to all paddlers, not only pro athletes or team paddlers. Fit, functionality, and comfort vary widely, and open surveys can be a valuable way to gather broad feedback and demonstrate a real commitment

**“YET, THIS PROGRESS HINGES ON A BALANCE OF SUPPLY AND DEMAND. BRANDS NEED WOMEN PADDLERS TO DEVELOP TAILORED GEAR, JUST AS WOMEN PADDLERS NEED GEAR THAT FITS THEM.”**

**"FOR YEARS, MUCH OF WOMEN'S PADDLING GEAR WAS SIMPLY MEN'S GEAR IN SMALLER SIZES, DESIGNED WITH LITTLE INPUT FROM FEMALE PADDLERS. THE 'SHRINK IT AND PINK IT' APPROACH OFTEN PRIORITIZED AESTHETICS OVER PERFORMANCE AND FIT."**

to inclusivity. Women should be actively involved in the design process to ensure gear meets the needs of all female paddlers. As Gabriella Pevec, designer at Kokatat, explains, the brand integrates real-world testing by using paddlers of different sizes, both men and women, in the patterning phase to assess fit, and specifically relies on women field testers to push prototypes to their limits.

Beyond apparel, gender-specific labeling has yet to extend to kayaks or paddles. And we raise the question, does it need to? Or does the current flexibility already meet the paddlers' needs? Manufacturers already offer a range of options, such as different paddle shafts, blade shapes, and boat sizes, allowing consumers to choose based on personal preferences. Features like adjustable hip pads, knee pads, footrests, and even seat cushions ensure a customize fit for every paddler, regardless of gender. The trend towards modularity seems to address many individual differences already, and while gender labels are meant to guide choices, they don't necessarily guarantee the best fit or functionality. In other sports, such as skiing and cycling, gendered models are common, so it's worth considering whether a similar approach would benefit paddlesports in the future.

Overall, the growing availability of women-specific gear reflects a broader shift

towards inclusivity in outdoor and paddlesports, driven by increasing participation. While progress has been made very quickly in the past few years, the road is still long, and true inclusivity goes beyond equipment. Mark Deming, chief marketing officer at NRS, explains: "We can build on this trend by being more inclusive in brand marketing, paddling events and competitions, and the paddlesports media." Ensuring that all paddlers—regardless of body type, gender, age, or ability—feel represented and supported is just as important as the gear itself. Thoughtful choices like offering diverse color options (beyond stereotypical pink) and ensuring a wide range of sizes play a role in making paddling more accessible and enjoyable for all.

Yet, this progress hinges on a balance of supply and demand. Brands need women paddlers to develop tailored gear, just as women paddlers need gear that fits them. While manufacturers may have once hesitated to invest in women's equipment due to perceived low demand, this is no longer the case. By continuing to innovate, listen to feedback, and involve women in every aspect of the design process, brands can ensure that paddlesports remain safe, fun, and accessible for everyone.

# EQUIPMENT & PADDLES

Equipment broadly encompasses all the little pieces that make a big difference, from inflation systems to roof racks to the PFDs that keep us safely and comfortably afloat. Splash gear, dry gear, and a wide range of base-layer options make going on adventures more feasible and more pleasant, no matter the weather. Spraydecks keep us in and water out, while accessories allow us to customize our gear and stay out of harm's way.

## ALL ROUND DRY SUITS

DRYSUITS DESIGNED TO KEEP YOU DRY AND COMFORTABLE  
WHETHER ON THE RIVER OR THE OCEAN

NEW  
2025

### PALM EQUIPMENT - FUSE ACTION SUIT

A shape-shifting dry suit with an athletic fit, perfect for action-packed paddling. Made from supple, two-way stretch fabric, the entire suit is PFAS-free, including the soft tricot lining and DWR finish. Durable yet flexible YKK AquaSeal zippers ensure watertight protection for both the rear entry and front relief zip. Comfortable GlideSkin neoprene neck seal and latex wrist gaskets provide a secure, watertight fit. A broad, waist-hugging double tube keeps the water out with every move.

### HIKO - ODIN AIR4.X DRY SUIT

The ODIN Air4 is a premium men's dry suit, designed for extreme kayaking while keeping you warm and dry. Featuring a rear-entry TIZIP® waterproof zipper, it's crafted for durability and performance in the most demanding conditions. The ergonomic cut ensures comfort and freedom of movement, while latex wrist and neck gaskets, protected with soft neoprene cuffs, provide maximum dryness. High-wear areas (seat, knees, forearms, and elbows) are reinforced with Cordura for added durability. The suit's Air4 material offers flexibility and resilience, and its "Double Pull" system tightens the front and back for a secure fit. The double tunnel waistband creates a tight seal against your sprayskirt, and the front TIZIP® waterproof relief zipper adds convenience. Adjustable ankle cuffs and integrated Cordura socks complete the suit, ensuring you stay dry and protected during every adventure.

**Material:** Japanese 4-layer Air4 | **Colors:** Kaituna  
. Inferno | **Size:** S . M . L . XL . 2XL

### HIKO - VALKYRIE AIR4.X PADDLE SUIT

The armor of choice for SUPers and packrafters, this semi-dry suit is designed to keep you paddling comfortably in chilly weather, even without full immersion protection. The neck features elastic neoprene with glide skin lining to maximize adhesion and minimize water entry, while latex wrist gaskets ensure dryness and longer neoprene over-cuffs provide added warmth. A large front-entry TIZIP® waterproof zipper allows for easy on and off, and the adjustable waist with dual side pulls ensures a snug fit without excess bulk. The anatomically cut paddling design supports a full range of motion, and integrated Cordura socks keep feet dry and shielded. For added convenience, a version with a fly is available under code 32406R.

**Material:** Japanese 4-layer Air4 | **Colors:**  
Kaituna . Inferno | **Size:** S . M . L . XL . 2XL

## KOKATAT - ICON DRY SUIT

The Icon dry suit, made with lightweight, rugged, and durable GORE-TEX PRO material, pushes the upper limits of dry suit performance. The streamlined patterning on the legs provides more articulation for increased movement and improved comfort. The rear entry flexible nylon waterproof zipper moves comfortably with the paddler in the most difficult moves. Additional features include an adjustable overskirt, GORE-TEX PRO socks, front relief zipper with flap, latex gaskets, and neoprene punch through over cuffs. The women's version features improved drop-seat zipper routing for better in-boat comfort. Offered as part of Kokatat's custom sizing and option program, the Icon rear-entry dry suit is designed to take a beating and keep you dry.

[KOKATAT.COM](https://www.kokatat.com)

## KOKATAT - SUPERNOVA ANGLER SEMI-DRY SUIT (GORE-TEX)

For kayak anglers looking for the ultimate comfort and protection in a paddling suit, the Supernova Angler is a front entry fishing specific paddling suit built with rugged and breathable GORE-TEX PRO fabric. The single layer of rugged fabric is lighter and dries faster than sewn-on reinforcement patches and provides the protection needed to withstand the demands of kayak fishing. Nylon waterproof front entry and relief zippers, a comfortable Neo Cinch Collar, latex wrist gaskets with adjustable hook and loop cuffs, and GORE-TEX PRO socks with gravel guards keep water out, and a covered relief zipper adds protection when handling your catch.

**Colors:** Sandbar . Red Unisex | **Sizes:** S . M . L . XL . XXL . LK (Large King)

[KOKATAT.COM](https://www.kokatat.com)

## KOKATAT - LEGACY DRY SUIT

The Legacy front-entry dry suit is the foundation of Kokatat's dry suit collection and features lightweight, rugged, and durable GORE-TEX PRO material. The streamlined patterning on the legs provides more articulation for increased movement and improved comfort. Features include an adjustable bungee drawstring waist, latex gaskets with neoprene punch through neck and neoprene lined adjustable wrist cuffs, flexible nylon waterproof entry and relief zippers with zipper flaps. A limited lifetime warranty and Kokatat's custom sizing and option program ensures completely dry comfort for the life of the garment.

### NRS - WOMEN'S PHENOM GORE-TEX PRO DRY SUIT

Class V paddlers looking for Class V protection who prefer less bulk in the chest will love the premium performance and maximum range of motion that the Women's Phenom GORE-TEX® Pro Dry Suit delivers. Mimicking the design of the popular Axiom, the Phenom features a double tunnel design with back-entry zipper, dropseat relief zipper and GORE-TEX® Pro fabric socks.

**Material:** GORE-TEX® Pro | **Colors:** Aqua | **Sizes:** XS . S . M . L . XL

[NRS.COM](http://NRS.COM)

### HIKO - CALYPSO AIR4.X W.DRY SUIT

The CALYPSO Air4 is a top-of-the-line women's dry suit, built to keep you warm and dry during extreme kayaking adventures. Featuring a rear-entry TIZIP® waterproof zipper, it is designed for optimal performance and durability. The ergonomic cut ensures comfort and freedom of movement, while latex wrist and neck gaskets, protected by soft neoprene cuffs, offer maximum dryness. High-wear areas like the seat, knees, and elbows are reinforced with Cordura for extra durability. Made from flexible Air4 material, the suit provides excellent mobility. The "Double Pull" system allows for a perfect fit by simultaneously tightening the front and back waist tabs, secured with hook-and-loop fasteners. A double tunnel waistband creates a tight seal against your sprayskirt, and the drop seat TIZIP® relief zipper adds convenience. Adjustable ankle cuffs and integrated Cordura socks complete the suit, ensuring you stay dry and comfortable.

**Material:** Japanese 4-layer Air4 | **Colors:** Inferno . Kaituna | **Size:** WS . WM . WL . WXL . W2XL

## NRS - MEN'S REV GORE-TEX PRO DRY TOP

Rev up the shoulder season in the NRS Men's Rev Dry Top. We combined our Paddler's Cut™ with GORE-TEX® Pro fabric construction to deliver superior waterproof, breathable protection. Features GlideSkin™ neoprene overcuffs, latex neck and wrist gaskets, an inner skirt with dual adjust neoprene waist and one PFD-friendly splashproof, zippered chest pocket.

**Material:** GORE-TEX® Pro | **Colors:** Chartreuse . Red  
**Sizes:** S . M . L . XL . XXL

[NRS.COM](http://NRS.COM)

## LEVEL SIX - DUKE

The Duke is a 3-season paddling dry top constructed from our lightweight eXhaust 2.5-ply waterproof breathable nylon, featuring a cut that provides completely unrestricted range of movement. The neoprene punch-through neck ensures great comfort for long days on the water. The overlapping double tunnel and Stealth waistband system work together with your skirt tunnel to create a drier seal and enhance your paddling experience.

**Features:** British latex wrist with adjustable gasket protectors . British latex neck gasket with neoprene punch through protector . Double tunnel and Stealth waistband system | **Materials:** Exhaust 2.5 waterproof breathable nylon | **Colors:** Black . Molten Lava . Citron | **Sizes:** S-XXL

[LEVELSIX.COM](http://LEVELSIX.COM)

## PEAK PS - DELUXE X2.5 EVO

Whitewater jacket constructed from X2.5 recycled nylon, featuring tough reinforced shoulders and elbows. The mid-heavyweight handling fabric provides the reliability needed for all extreme whitewater conditions. It includes double neck, wrist, and waist seals for ultimate protection, crafted with 20m waterproofing, 5,000 g/m<sup>2</sup>/24hrs breathability rating, and a PFC-free DWR finish. Additionally, it features sewn hole drainage between neck seals and is available in ladies' sizes.

**Colors:** Red/Blue . Blue/Red | **Weight (M):** 890 g/1.96 lb | **Sizes:** L10 . L12 . L14 . S . M . L . XL . XXL

[PEAKUK.COM](http://PEAKUK.COM)

## PEAK PS - FREERIDE EVO

Crafted with breathable and durable X4 mid-weight recycled nylon, the Freeride is a fully articulated whitewater jacket fitted with our super stretch Aquaout Bioprene cone neck, featuring a neat tension strap. With 20m waterproofing, 5,000 g/m<sup>2</sup>/24hrs breathability rating, and a PFC-free DWR finish, it's one of the most comfortable jackets for various whitewater activities.

[PEAKUK.COM](http://PEAKUK.COM)

## NRS - MEN'S FLUX DRY TOP

From the splashy wave trains to the final eddy, the NRS Men's Flux Dry Top delivers the optimal amount of core insulation and waterproof-breathable protection for those warm days on chilly waters. Whether you prefer roadside features or manmade parks, count on the Flux to keep you warm and dry. Paddler's Cut™ delivers an athletic fit with room to layer underneath. Tough latex gasket at the neck and wrists with Glideskin™ neoprene volcano-style overcuffs add durability and dry performance.

**Material:** 4-Layer Eclipse™ | **Colors:** Blue . Black | **Sizes:** S . M . L . XL . XXL

[NRS.COM](http://NRS.COM)

## KOKATAT - STROKE DRY TOP

For budget-minded paddlers, the Stoke is an excellent all-around dry top that provides outstanding performance and features Kokatat's proprietary waterproof and breathable Hydrus 3.0 fabric. Hydrus 3.0 consists of a tough Nylon outer layer with a DWR finish to keep water out while a polyurethane micro-porous middle layer and a soft polyester inner layer work in tandem to manage interior moisture. The Stoke has a dual adjustable neoprene overskirt, a self-draining zippered chest pocket, factory-sealed seams, latex gaskets and neoprene punch through collar and wrist cuffs.

**Men's Colors:** Storm Blue . Tangerine . Women's Colors: Purple Haze . Rain | **Men's Sizes:** S . M . L . XL . XXL . Women's Sizes: S . M . L

[KOKATAT.COM](http://KOKATAT.COM)

## HIKO - PALADIN AIR4.X DRY TOP

Paladin Air4.X is top of a line men's dry jacket to keep you warm and dry while pushing the boundaries of white water kayaking even in the "off-season". It is the newest evolutionary step in the Paladin line. Strategically positioned seams create a great fit that allows free range of motion. Latex wrist and neck gaskets are protected by longer neoprene cuffs and high neoprene collar. Ergonomically designed for paddlers. A double tunnel waistband to provide a tight seal against your sprayskirt. Equipped with our "Double Pull" system were pulling forward on the waist tabs simultaneously tightens the front and back and is then secured via hook-and-loop on the front for a perfect fit. Made from Air4 - it is light, breathable, four-layer fabric. Reinforced with Cordura in key areas to increase the durability of the garment.

**Colors:** Kaituna . Inferno | **Sizes:** S . M . L . XL . XXL

[HIKOSPORT.COM](http://HIKOSPORT.COM)

## PALM EQUIPMENT - ATOM JACKET

From wind, rain, and baking sun to full immersion in icy water your jacket goes through it all to keep you paddling at your best. The Atom is our most advanced whitewater jacket made from durable XP 3-layer fabric with great freedom of movement. This expedition top will perform time and time again in the harshest environments keeping you looking good all the way to the take-out.

**Colors:** Chilli/Flame . Cobalt/Ocean | **Sizes:** S . M . L . XL . XXL

## DRY TOPS SHORT SLEEVES |

JACKETS TO KEEP DRY AND COMFORTABLE IN WARMER WATERS AND TEMPS.

### PEAK PS - COMBI

Perfect for alpine adventures, the Combi is a midweight, tough, and versatile whitewater jacket. It features unique latex bicep seals and can be paired with Neoskin Combi Sleeves for added warmth when needed.

**Weight (M): 580 g/1.28 lb | Shell material: X2.5 midweight recycled ripstop nylon, 20m waterproofing, 5,000 g/m²/24hrs breathability | Finish: PFC-free DWR | Features: Articulated cut . Fully taped seams . Aquaout Bioprene cone neck with tension strap . Evo latex & Bioprene arm seals . Removable Neoskin combi sleeves (sold separately) . Bioprene waist seal . Easy-access chest pockets | Zippers: Recycled YKK**

[PEAKUK.COM](https://www.peakuk.com)

### HIKO - ICARUS AIR4.X S/S DRY TOP

This shortie dry top is perfect for keeping your kayak extra dry during playboating or in big water, and it's also ideal when the water is cold but the air is hot. It's designed with a short sleeve and a neck latex gasket, further protected with a neoprene cuff for durability. The neoprene bicep cuff has a thin silicone band inside, which ensures a watertight seal against your skin while keeping the sleeves in place. Rolling the sleeves up makes it easier to get in and out of the top. Additionally, the double tunnel waistband provides a tight seal against your sprayskirt, and the "Double Pull" system lets you tighten both the front and back of the top by pulling the waist tabs forward, which are then secured with hook-and-loop for a perfect fit.

**Material: Japanese 4-layer Air4 | Colors: Kaituna . Inferno | Size: S . M . L . XL . 2XL**

[HIKOSPORT.COM](https://www.hikosport.com)

### LEVEL SIX - VEGA

The Vega is a short-sleeve dry top constructed from a combination of our eXhaust 3.0-ply waterproof-breathable nylon on high-wear areas like the shoulders and arms while keeping the jacket light with our eXhaust 2.5-ply waterproof-breathable nylon on the chest. The Vega features our Stealth Waistband system that works with your skirt tunnel to provide you with a drier seal and better paddling experience.

**Color: Crater Blue | Size: XS . S . M . L . XL . XXL**

[LEVELSIX.EU](https://www.levelsix.eu)

### KOKATAT - KNAPPSTER SEMI-DRY SHORTY

In warmer conditions, the Knappster delivers outstanding performance, breathability, and comfort in the surf or at the local play hole. Made with GORE-TEX PacLite® technology, the Knappster features factory sealed seams, punch-through bicep cuffs, Neo Cinch collar, double skirt, and an adjustable neoprene waistband.

**Colors: Ocean . Mantis | Sizes: S . M . L . XL . XXL**

[KOKATAT.COM](https://www.kokatat.com)

### SANDILINE - JACKET ADVANCED 3L SHORT SLEEVE

The Short Sleeve Advanced Jacket is designed to provide the best balance between comfort and performance for a variety of watersports. Stay free, warm, and dry with each paddle stroke. Crafted from breathable and waterproof 3-layer cloth, waterproof 20,000 mm, breathable 6,000 g/sqm/24h. Features welded seams, a velcro adjustable belt, lightweight, and highly breathable. Inner belt cloth (spraydeck tunnel) and neck and arm cuffs.

[SANDILINE.COM](https://www.sandiline.com)

### LEVEL SIX - AUSTRALIS

The Australis is a short-sleeve semi-dry top constructed from our award-winning eXhaust 2.5 ultralight (UL) waterproof-breathable nylon. This top is designed to be light, breathable and offers users a full range-of-motion. The Australis features an overlapping double tunnel and our Stealth Waistband system to work with your skirt and provide you with a dry seal and better paddling experience.

**Color: Crater Blue . Molten Lava | Sizes: S . M . L . XL . XL . XXL**

UPDATED

### KOKATAT - STORM CAG

This one-piece combination jacket and spray skirt cover is designed to be worn over existing clothing and life vest in inclement weather on or off the water. This piece also functions in an emergency when needed for extra insulation or when dealing with an injured paddler. When not in use, the Storm Cag is highly compressible and can be rolled into the hood for compact storage. Made with lightweight, waterproof breathable Hydrus 2.5 fabric, this full coverage pullover has an integrated shock cord rand to assure a secure fit over the spray skirt. Other features include dual adjustable hood with internal foam bill, zippered front cargo pocket with pass-through for access to life vest, pile-lined handwarmer pocket, zippered sleeve pocket, and reflective tape on hood and sleeves.

**Color:** Mantis | **Size:** Unisex One Size Fits Most (Fits up to 54.6x96.5 cm/21.5"x38" cockpit, Jacket Size XL)

[KOKATAT.COM](https://www.kokatat.com)

## PEAK PS - ADVENTURE DOUBLE

Crafted from tough, waterproof, and breathable X4 recycled nylon fabric, the Adventure Double is the ultimate multi-day paddle jacket. It features twin sleeve pockets, a stowable hood within a fleece-lined collar, and a double waist for maximum functionality and comfort.

**Weight (M): 990 g/2.18 lb | Shell Material: X4 midweight recycled ripstop nylon with 20m waterproofing, 5,000 g/m²/24hrs breathability | Reinforcement: Heavyweight X4 elbows | Finish: PFC-free DWR | Features: Articulated cut . Fully taped seams . Fleece-lined neck . Bioprene wrist and waist seals with adjustable Velcro . Adjustable hood . Zip pockets with drainage holes | Zippers: Recycled YKK**

[PEAKUK.COM](http://PEAKUK.COM)

## PEAK PS - ADVENTURE LITE

The Adventure Lite is a high-performance, lightweight, and highly breathable jacket for touring and sea kayaking, crafted almost entirely from recycled polyethylene. Designed with sustainability at its core, this jacket is intended for recycling at the end of its life, with the PE content remade into textile yarn. All non-essential components have been removed to facilitate easy deconstruction, making the Adventure Lite Circular Ready and setting a new standard in sustainable manufacturing.

**Materials: Pertex Revolve X3 recycled polyester | Features: Articulated cut with bent elbows . Fully taped seams . 20m waterproofing and 20,000 g/m²/24hrs breathability rating . PFC-free DWR finish . Zip outer & Bioprene inner neck seal with adjustable Velcro closure | Sizes: XS . S . M . L . XL . XXL**

[PEAKUK.COM](http://PEAKUK.COM)

## NRS - MEN'S ELEMENT GORE-TEX PRO SEMI-DRY TOP

When your seafaring adventures push the limits, trust the Men's Element GORE-TEX® Pro Semi-Dry Top to defend against the ever-changing moods and conditions of open waters. Premium GORE-TEX Pro construction combines with an inner skirt and an adjustable hood and face shield for versatile protection whether you explore shoals or fjords, hug the coastline or navigate offshore. Features reflective accents for increased visibility and two splashproof, zippered pockets on the sleeves for small essentials.

**Material: GORE-TEX® Pro | Colors: Flare | Sizes: S . M . L . XL . XXL**

[NRS.COM](http://NRS.COM)

## LEVEL SIX - JUNEAU

The Juneau is a high-performance top designed to keep you warm on the water in cold weather. This top is constructed from a combination of our eXhaust 3-ply waterproof-breathable nylon on high-wear areas like the shoulders and arms while keeping the jacket light with our eXhaust 2.5-ply waterproof-breathable nylon on the torso. The Juneau is designed to give you a completely unrestricted range of movement. The overlapping double tunnel and the dual-cinch waist system work with your skirt tunnel to provide you with a drier seal and a better paddling experience.

**Colors: Citron . Molten Lava | Sizes: XS . S . M . L . XL . XXL**

[LEVELSIX.EU](http://LEVELSIX.EU)

## PALM EQUIPMENT - BORA JACKET

This jacket is dependable when the weather becomes challenging. For rough ocean conditions and cold-weather touring, the Bora will keep you comfortable and paddling strong. Supple XP 3-layer fabric keeps you warm and let's vapor out, while the articulated hood, latex wrist seals, and VELCRO® twin waist will keep you snug and dry.

**Colors: Chilli/Flame | Sizes: S . M . L . XL . XXL**

[PALMEQUIPMENTEUROPE.COM](http://PALMEQUIPMENTEUROPE.COM)

## PALM EQUIPMENT - CHINOOK JACKET

Paddle on lake, river or sea, through wind, rain and spray. The Chinook is light enough to pack away small, but with the waterproof protection you need when the weather rolls in. A volume adjustable hood keeps the wind and rain out, and the internal adjustable neck closure and latex wrist gaskets keep out waves.

**Men's Colors: Cobalt . Gold | Women's Sizes: Gold) Men's Sizes: S . M . L . XL . XXL Women's Sizes: WS . WM . WL . XXL**

[PALMEQUIPMENTEUROPE.COM](http://PALMEQUIPMENTEUROPE.COM)

## NRS - MEN'S ENDURANCE SPLASH JACKET

Lightweight, waterproof protection at an entry-level price, the NRS Men's Endurance Jacket delivers the perfect type of coverage for splashy runs, breezy canyons and rainy days. Designed with room to layer underneath and a PFD-friendly accessory pocket. Constructed with HyproTex™ 2.5 material, a lightweight technical fabric that breathes freely and repels water..

**Colors: Red . Chartreuse/Gray . Blue | Sizes: S . M . L . XL . XXL | Material: HyproTex™ 2.5**

[NRS.COM](http://NRS.COM)

## PALM EQUIPMENT - FUSE ADVENTURE JACKET

For adventure touring, this shape-shifting jacket provides comfort and protection in tough conditions. Made from a flexible, two-way stretch fabric for an athletic fit, the twin waist system seals with your spraydeck. Latex wrist gaskets and a GlideSkin neoprene neck gasket offer watertight protection. When the weather takes a turn, the removable storm hood provides extra protection from the elements.

**Colors: Navy + Mandarin | Sizes: S . M . L . XL . XXL**

## WOMEN NEOPRENE

INSULATION DESIGNED TO KEEP YOU WARM WHEN WET.

### LEVEL SIX - SOMBRIO S/S TOP

The Sombrio Neoprene Rash Top redefines comfort and warmth by utilizing a revolutionary new fabric containing thousands of tiny channels that allow your body to breathe and wick away moisture. The Sombrio feels as comfortable as a cotton shirt next to your skin but has the warmth and protection of a neoprene wetsuit.

**Features:** UPF 50+ sun protection . Flatlock seams to prevent chafing . Athletic fit | **Materials:** 0.5mm petroleum free neoprene | **Color:** Black Heather | **Sizes:** XS-XL

[LEVELSIX.EU](https://LEVELSIX.EU)

### KOKATAT - NEOZIP JANE

Designed for women, these burly Farmer Janes are a dream come true for paddlers who prefer a wetsuit! Features include 3 mm double-face neoprene construction, beefy all nylon front zipper for ease of entry and a relief zipper for women. Paddling specific articulation, flat-lock seams and comfortable no-seam armholes with size-specific color blocking for an at-a-glance fit make these pieces a great value! Super stretch ankles and customized non-skid reinforcement at the knee wraps up the package by aiding boaters to stay put and helping to reduce abrasion in a high-wear area.

**Color:** Black | **Sizes:** S . M . L . XLS

[KOKATAT.COM](https://KOKATAT.COM)

### NRS - WOMEN'S 3.0 IGNITOR WETSUIT

The NRS Women's 3.0 Ignitor Wetsuit features 3 mm of neoprene insulation and a Farmer Jane design for unrestricted range of motion. Now you can paddle longer without breaking the bank. Reinforced knees add protection and durability, while flat-lock seams provide against-the-skin comfort. Earth-conscious construction includes neoprene insulation from recycled tires, dope-dyed recycled fabrics and water-based adhesives.

**Colors:** Slate | **Sizes:** S . M . L . XL | **Fit:** Form Fit | **Material:** 3 mm recycled neoprene

[NRS.COM](https://NRS.COM)

### NRS - WOMEN'S HYDROSKIN 0.5 JACKET

Whether you need a layer over your bikini or want to turn your Shorty or Farmer Jane into full immersion protection, the HydroSkin 0.5 Jacket's easy-entry zipper lets paddlers quickly adapt to changing conditions. The premium nylon-spandex exterior sheds water and provides optimal stretch, while the soft, smooth and hydrophobic interior provides insane next-to-skin comfort.

**Colors:** Poseidon . Quarry | **Sizes:** XS . S . M . L . XL . XXL | **Fit:** Form Fit | **Material:** .5 mm HydroSkin® . Rashguard underarm panel

[NRS.COM](https://NRS.COM)

### LEVEL SIX - SOMBRIO LONG SLEEVE NEOPRENE TOP

The Sombrio limestone neoprene rash top redefines comfort and warmth by utilizing a revolutionary new fabric containing thousands of tiny channels that allow your body to breathe and wick away moisture. **Sizes:** XS . S . M . L . XL

[LEVELSIX.COM](https://LEVELSIX.COM)

### KOKATAT - WOMEN'S NEOCORE LONG SLEEVE SHIRT

This lightweight neoprene fabric is worn like a shirt and provides sun protection and warmth in the water. The lightweight 0.5 mm neoprene fabric features a plush polyester inner lining that is comfortable against the skin and retains less water. Combined with a Durable Water Resistant (DWR) coating on the outer surface, NeoCore helps regulate body temperature by reducing the effect of evaporative heat loss. Women's-specific patterning.

**Color:** Graphite | **Sizes:** S . M . L . XL

[KOKATAT.COM](https://KOKATAT.COM)

### LEVEL SIX - PRO GODDESS

Built for multiple days on the water, the Pro Goddess neoprene-lined shorts are the pinnacle of evolution between our boardshort and neoprene lines. The outer layer is our Pathfinder expedition short which is constructed from a quick-drying elastic nylon material with mesh cargo pockets. It has a YKK zipper fly with a button closure, and a protective lycra gusset. We've designed the back with an additional yoke panel for more forward mobility. The Pro Goddess Shorts have an integrated belt with a low-profile buckle. The durable and stretchy outer layer provides full movement and no binding when moving around while the inner 0.5 mm neoprene layer provides you with the warmth and protection you need while on the water. The Pro Goddess is the ultimate on-water adventure short.

### PRIJON - KUPA

Optimized protection for whitewater paddling! The supertight polycarbonate shell of the KUPA whitewater helmet weighs only 320g. Designed for high-performance paddlers, it protects your head in the roughest conditions. Its polycarbonate shell is molded with extreme precision to provide the best performance-to-weight ratio. The KUPA helmet is not only incredibly light but also highly impact resistant! With 14 vents and a 3D internal system, it guarantees excellent ventilation. For a comfortable fit, the helmet features a turn dial that allows for easy, stepless adjustment from 54 to 61 cm, preventing the helmet from rolling on your head. Two different foam paddings are included to help kayakers find the perfect fit.

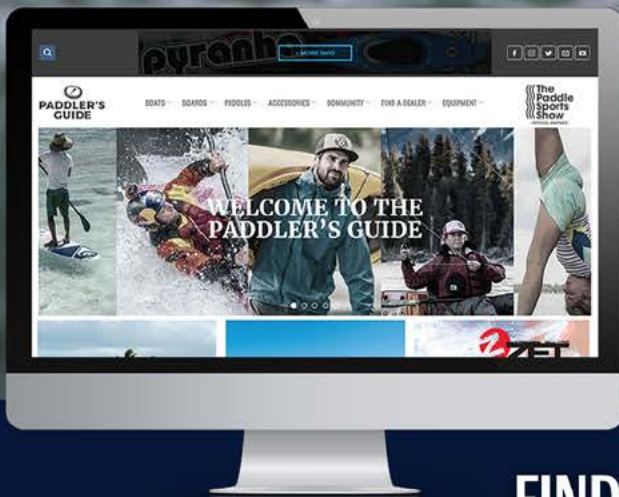

**Size:** Unisex adjustable 54-61 cm/21.3"-24" | **Colors:** Orange . Green

### HIKO - PLAYER PFD

The Player PFD, the first in our new generation, is designed to let novice kayakers focus on the water, not the life jacket. Built for comfort and freedom, it offers unrestricted movement and breathability. Made from lightweight, PVC-free PE foam in an ergonomic 3D design, it stays light even when wet and dries quickly. Side entry with two military-grade buckles makes it easy to put on, while color-coded sizing and soft, water-resistant webbing ensure durability and flexibility. Ideal for shorter and female paddlers, the Player PFD makes your first kayaking experiences all about the adventure.

**Material:** PU coated Nylon | **Colors:** Black . Red . Mustard | **Sizes:** XS . S/M . L/XL . 2XL

### NRS - AMBIENT PFD

When you close your eyes and think "life jacket," what do you see? For us it's the NRS Ambient PFD, a modern take on the classic life jacket design. Built with simplicity and comfort in mind, the Ambient features our Orbit Fit System, which creates a unique, flexible shape that effortlessly conforms to your body. Two expandable, zippered pockets hold on-water essentials and a smooth YKK® front-entry zipper makes taking the jacket on and off a breeze.

**Material:** 420-Denier Ripstop Nylon | **Colors:** Forest . Blue . Flare . Plum . Aqua | **Sizes:** XS/M . M/L . XL/XXL | **Fit Profile:** Medium | **Certification:** USCG Performance Level 70

[NRS.COM](https://NRS.COM)

## SECUMAR - VIVO 50

Specially designed for use in canoes, the VIVO 50 is easy to wear; simply pull it over your head and secure the crutch strap to keep the sides clean for unhindered paddling. The front mesh pocket is perfect for storing your Mars Bar or Kendal Mint Cake!

**Colors:** Orange/Navy | **Sizes:** >40 kg/50 N

[SECUMAR.COM](https://www.secumar.com)

## PALM EQUIPMENT - SOLO PFD

Make it a cool day paddling in this low-profile vest PFD. Its slim shape affords you great freedom of movement. The Solo Vest is easy to put on and adjust, with the side entry buckles and padded neoprene shoulder adjustment. Keep your sunscreen and essentials close to hand in the neat expanding front pocket.

**Colors:** Teal . Jet Grey . Chilli | **Sizes:** XXS (40 N) . XS/S (45 N) . M/L (50 N) . XL/XXL (55 N)

[PALMEQUIPMENTEUROPE.COM](https://www.palmequipmenteurope.com)

## PEAK PS - PS VEST

Designed for paddlers seeking a low-profile, easily fitting, high-performance PFD with ample storage. The spacious front pocket accommodates all the items you might need within easy reach during your water excursions, securely attached to the internal fabric gear loop. Ideal for various paddlesports, including touring, racing, and paddleboarding. The PFD can be returned to Peak PS at the end of its life for recycling.

**Colors:** Black/Blue | **Sizes:** SM . LXL . XXL  
| **Certification:** ISO 12402-5/6 approved |

# RACING COMPETITION

FLOTATION DESIGNED TO MAXIMIZE COMFORT AND PERFORMANCE SO YOU CAN GIVE IT YOUR ALL WHEN EVEN MILLISECONDS COUNT.

## HIKO - ZEPHYR BALLER COMBO

Building the ultimate slalom decktop demanded a clear design choice. Our pick: the BALLER 87 skirt with a reinforced deck, ready for boat-on-boat action. Paired with the ZEPHYR top—light and stretchy, it leads the way. The BALLER 87, a bungee-style neoprene spray deck for intermediate to advanced paddlers, crafted from eco-friendly e.prene, is a durable choice. The 4 mm e.prene rubber deck with Supratex nylon ensures flexibility without sacrificing durability. A sticky silicon coating enhances cockpit rim adhesion.

**Colors:** Black . White . Coral Blue | **Sizes:** S . M . L . XL . XXL

[HIKOSPORT.COM](https://HIKOSPORT.COM)

## HIKO - ALUKI K+PFD

Low-profile vest designed for competitive racing. A low-profile front panel plus flexible neoprene shoulder straps give a comfortable fit without restricting movement. Foam is shaped to stay closer to the body of the racer. The vest has three side-adjustable straps running the circumference to provide an ideal fit and internal high-strength shoulder straps for safety. Two different versions provide the best fit in each discipline; One is for kayakers with shorter shoulder straps and one for canoeists with longer shoulder straps. Approved by the ICF and ISO 12402-5 and 12402-6 certified.

**Colors:** Black | **Certification:** ICF Approved . ISO 12402-5 and 12402-6 | **Sizes:** XS. S/M . L/XL

[HIKOSPORT.COM](https://HIKOSPORT.COM)

## HIKO - ENDURANCE PFD

The name says it all. Clean construction and PE foam to minimize the weight during long a race or an expedition that requires you to paddle long distances without stopping.

**Colors:** Kaituna | **Size:** S/M . L/XL . XXL

[HIKOSPORT.COM](https://HIKOSPORT.COM)

## PEAK PS - RACER ST2022

The new benchmark in high-performance racing gear, the ST2022 changes the game again, with minimal body foam, sleek shoulder straps and no body straps. A skin-tight fit so the racing lines will be cut like never before.

**Certification:** ISO 12402-5 / 6 approved and ICF registered | **Materials:** SS4 four way stretch polyester spandex fabric with 20 m waterproofing and 20 m breathability

[PEAKUK.COM](https://PEAKUK.COM)

## PEAK PS - RACER PRO PDF

Low-profile, high-performance race PFD giving superb comfort and minimum restriction. Not only great for competition paddlers, but also perfect for SUP, touring or fitness paddling. The Racer Pro has been worn by multiple Olympic, World and European Champions.

**Certification:** ISO 12402-5 approved and ICF registered | **Floatability:** 45-60 N of Gaia environmentally friendly soft flotation foam | **Weight (LXL):** 630 g/1.39 lb

[PEAKUK.COM](https://PEAKUK.COM)

## PEAK PS - MARATHON RACER

Designed for paddlers looking for a low-profile, high-performance fit but with plenty of storage and hydration options including a rear h2o bladder pocket and a front pocket large enough to fit a drinks bottle with stiff straw. The Marathon Racer has proven hugely popular with distance paddlers, explorers, and stand up paddleboarders.

**Certification:** ISO 12402-5 approved | **Floatability:** 55-65 N of Gaia environmentally friendly soft foam | **Weight (LXL):** 790 g/1.74 lb

### PRIJON - CURVE-LINE

Innovative and thoughtfully designed PFD, made for whitewater paddlers. The integrated strap system ensures safety while allowing unrestricted movement. Easy to put on and take off with the side zipper. The large front pocket provides ample space for a carabiner, knife, pipe, and other accessories. Crafted from premium-quality materials for long-lasting durability. CE certified.

**Sizes:** XS . S . M/L . XL/XXL | **Certification:** CE

[PRIJON.COM](http://PRIJON.COM)

## HIKO - GUARDIAN 3.D PFD

The Guardian 3.D ensures safety and comfort in demanding situations with its anatomically shaped design. The 3D shaping molds to your body, eliminating gaps and bulk while maintaining top flotation, providing an excellent fit even for smaller paddlers. Telescopic side panels slide through a tunnel to minimize bulk and keep your ribs protected, while the adjustable, padded shoulder straps move with you for unrestricted mobility. The quick-release waist harness has a stainless steel ring, and the internal strap system strengthens the connection for added durability.

**Material:** Dupratex 600D (Foam: Phtalate Free Corex) | **Colors:** Kaituna . Inferno . Stealth | **Size:** XS . S/M . L/XL . 2XL

[HIKOSPORT.COM](http://HIKOSPORT.COM)

## HIKO - CINCH PFD

The comfortable low-cut vest offers excellent flotation with unrestricted movement. Featuring a front zippered entry and a single high-strength buckle, it's easy to put on and take off. It includes two large front pockets, two smaller sticky neoprene pockets, and a knife lash tab for convenience. The collapsible throw bag tunnel on the lower back adds extra functionality, while reflective accents enhance visibility in low-light conditions.

**Material:** Dupratex 600D, Oxford 210D Nylon (Foam: Phtalate Free Corex) | **Colors:** Eastern Blue . Inferno | **Size:** S/M . L/XL . XXL

## NRS - NINJA PFD

Years of development and refinement have made the NRS Ninja PFD an all-time classic. Whether you're a lifelong river rat or just getting started, the Ninja provides exceptional athletic performance by placing flotation in all the right places without impeding range of motion or compromising on comfort. Redesigned using our Orbit Fit System and Graded Sizing, each Ninja provides a dialed-in fit for every body. We've retained fan-favorite features like the large, compartmentalized clamshell pocket for on-water essentials and a quick stash pocket that doubles as a hand warmer or the perfect place to tuck your spray skirt handle.

**Material:** 420-Denier Ripstop Nylon | **Colors:** Plum . Black . Red . Flare . Citrus . Aqua | **Sizes:** XS/M . M/L . XL/XXL | **Fit Profile:** Low | **Certification:** USCG Performance Level 70

## FISHING

OFFERING EXTRA FLOTATION AND OPTIMAL SAFETY FOR USE WHILE FISHING.

NEW  
2025

### NRS - WRANGLER PFD

A trim version of the best-selling NRS Chinook PFD, the Wrangler provides the same fit and comfort of the Chinook in a slimmer profile. Anglers and rec paddlers will appreciate the Wrangler's do-it-all versatility, from casting lines after work to weekend lazy float trips. A mesh lower back provides excellent ventilation on warmer days and fits well against kayak and rower's seats, and a convenient selection of pockets provide plenty of storage options for flies, tools, and snacks.

**Material:** 420-Denier Ripstop Nylon | **Colors:** Charcoal . Forest | **Sizes:** XS/M . M/L . XL/XXL | **Fit Profile:** Medium | **Certification:** USCG Type III

[NRS.COM](https://nrs.com)

### PALM EQUIPMENT - KOLA ANGLER PFD

A high-back fishing PFD that stores everything but the kitchen sink while remaining comfortable and lightweight on the water. The cutaway back panel is designed to work with taller seats, while the slimline front allows for unrestricted movement. The Kola Angler's clamshell pockets fold open to provide a clear view of the organized compartments. It features a sturdy stow point for pliers or braid scissors and multiple attachment points, including a landing net hanger at the back.

**Colors:** Flame . Jet Grey | **Sizes:** XS/S (45 N) . M/L (50 N) . XL/XXL (55 N)

UPDATED

### KOKATAT - LEVIATHAN

The Leviathan is the ultimate kayak fishing life vest, with 14 pockets and multiple fixture options allowing anglers to carry a selection of lures, tools and gear wherever they choose. This high-performance recreational vest features body-mapped Gaia® foam panels contoured precisely to wrap around the torso for a secure and comfortable fit. Ultra-light, quick-drying Ariaprene™ mesh back and shoulders compliments the high-back seats, and the 210D high tenacity, rip-stop nylon withstands the demands fishing equipment can put on a vest. Fleece-lined hand warmer pockets are a bonus on chilly days.

**Colors:** Olive . Orange . Gray (Women's) | **Sizes (Buoyancy LBS/OZ):** XS/S (16/00) . M/L (16/00) . XL/XXL (16/00) | **Certification:** ISO (Europe) . Harmonized (US Coast Guard & Transport Canada)

[KOKATAT.COM](https://kokatat.com)

### NRS - ZANDER

Adventure Anglers know that the best life jacket is one you'll wear. With a slim-fitting medium profile, front-zip design and modern features, the Zander PFD highlights simplicity, convenience and freedom of movement. Whether you're jigging, casting, spinning, trolling, paddling or landing the big one, do it safely in the Zander. Compatible with the NRS Swig Hydration Pack (#40022.02) for all-day on-water hydration.

**Materials:** 100% recycled 420 D ripstop nylon . 100% recycled 200 D ripstop nylon . 70 D knit polyester | **Sizes:** XS/M: 65 N . M/L: 70 N . XL/XXL: 75 N | **Certification:** USCG Level 50

[NRS.COM](https://nrs.com)

### NRS - CHINOOK OS PFD

With the fit and design inspired by our most popular life jacket, the Chinook OS Fishing PFD has added features for open-water safety and convenience. The Chinook OS is a Type III, medium profile life jacket delivering 16.0 pounds of flotation. PlushFit™ foam and a high-back design combine to create an extremely comfortable vest for any type of raft or kayak seat.

**Material:** 400 D Ripstop nylon | **Colors:** Orange . Red | **Sizes:** XS/M . L/XL . XL/XXL

# PERFORMANCE // REIMAGINED

The Ninja OS combines athletic performance with offshore preparedness for kayakers venturing beyond the sheltered bay, whether playing in the surf zone, exploring rock gardens, or island hopping on a multiday tour. Building on the freestyle-inspired original NRS Ninja, the Ninja OS adds functional details for safety and convenience at sea, including a VHF-radio compatible pocket, attachments for your strobe and other accessories, hi-visibility reflective accents, and a shielded knife dock to keep your fixed or folding blade out of the way but accessible. Our Orbit Fit System™ layers multiple pieces of lightweight closed-cell foam to create a flexible, pre-curved shape that effortlessly conforms to your body, with every size uniquely tailored to fit. Delivering offshore capability with a minimalist profile and superior fit, the Ninja OS keeps you free to move and prepared for safety, wherever the journey takes you.

### SECUMAR - FURIO

The SECUMAR FURIO, winner of the Innovation Award 2023, is a new hybrid impact vest designed specifically for kite surfing, foiling, skiff sailing, and stand-up paddleboarding (SUP). This innovative vest combines the advantages of a 50 Newton buoyancy aid with impact protection and features an additional manually activated 110 Newton lifejacket buoyancy chamber, providing a total of 160 Newtons of buoyancy in potentially dangerous situations.

**Sizes:** S 60-80 kg/132-176 lb - Chest: 88-100 cm/34.6-39.4" . M 70-90 kg/154-198 lb - Chest: 95-105 cm/37.4-41.3" . L 80-100 kg/176-220 lb - Chest: 100-115 cm/39.4-45.3" . XL 90-115 kg/198-254 lb - Chest: 110-125 cm/43.3-49.2" | **Colors:** Black/Orange

[SECUMAR.COM](https://www.secumar.com)

### SECUMAR - SECUFIT

This inflatable lifejacket provides freedom of movement for canoeists, rowers, and paddlers. Its outer cover features an ergonomic shape that minimizes contact with the neck, and it's well-padded with softshell material for maximum comfort. The back strap is easily adjustable to fit individual body sizes. Additionally, the SECUFIT cover is equipped with reflective strips for enhanced visibility.

**Sizes:** >50 kg/150 N | **Colors:** Navy

[SECUMAR.COM](https://www.secumar.com)

### SECUMAR - VIVO 100

The folded and packed VIVO 100 offers enhanced mobility and provides no buoyancy when it's not needed. This inflatable lifejacket is manually activated, allowing you to perform an Eskimo roll or similar maneuvers with minimal hindrance; simply pull the firing cord when necessary.

**Sizes:** >50 kg/100 N | **Colors:** Orange/Navy

[SECUMAR.COM](https://www.secumar.com)

### PALM EQUIPMENT - GLIDE PFD

This waist belt PFD conceals a 100 N flotation bladder which can be instantly inflated when you need it at the pull of a cord. Perfect for stand-up paddle boarding, the Glide has a handy phone-sized pocket and D-ring clip points. Sifting comfortably out of the way when not in use, the the Glide fastens securely over your head after inflation.

**Sizes:** One size (100 N) | **Colors:** Blue . Red

[PALMEQUIPMENTEUROPE.COM](https://www.palmequipmenteurope.com)

### SECUMAR - FREE 100

Inflatable Rescue Device for swimmers, stand-up paddlers, and all water sports enthusiasts. This fully-fledged inflatable lifejacket features a buoyancy chamber with 100 N of lift. It offers quick activation in just three steps and includes printed folding instructions for easy use. The device is reusable by simply replacing the CO2 cartridge and comes with a two-tone whistle. Its protective cover is made of durable Cordura material. The design ensures rapid stabilization of both the wearer and the vest, keeping the head and airways above water after stabilization.

**Sizes:** >40 kg/88 lb/50 N | **Weight:** 500 g/1.1 lb | **Colors:** Black . Orange

[SECUMAR.COM](https://www.secumar.com)

### PALM EQUIPMENT - SOLO ADVENTURE PFD

Adventure-ready, this slimline side-entry PFD provides freedom of movement and features a quick-release chest belt for secure leash attachment. The Solo Adventure vest is easy to wear and adjust with side-entry buckles and padded neoprene shoulder straps. Its high-positioned, adjustable chest belt ensures safe leash release, reducing the risk of entanglement. A convenient expanding front pocket keeps essentials close at hand, while an internal rear pocket accommodates a hydration bladder for extended outings.

**Sizes:** XXS (40 N) . XS/S (45 N) . M/L (50 N) . XL/XXL (55 N) | **Colors:** Navy

[PALMEQUIPMENTEUROPE.COM](https://www.palmequipmenteurope.com)

## PEAK PS - KIDZ ZIP

The Kidz Zip is a fully ISO 100-approved lifejacket designed with safety, easy fitting, and fun in mind, setting a new standard in flotation devices for children. Featuring two playful designs, highly specified materials, and construction methods, this PFD offers durability and child-friendly appeal. Sustainable elements include gear loops and zip pullers made from fabric offcuts, avoiding extra plastic, and accessible flotation foam, which allows for replacement, reuse, and easier recycling when the vest reaches the end of its life.

**Dimensions:** Sproget (2-4 yrs) (15-25 kg/33-55 lb) . Sprog (4-7 yrs) (20-35 kg/44-77 lb) | **Weight:** Sprog: 700 g/1.54 lb | **Materials:** Tough ripstop 600D polyester/nylon shell | **Features:** ISO 100 approved kids life jacket with buoyant collar . Ultimate enjoyment cut . 40-50N of Gaia environmentally friendly soft flotation foam . Opening zip front . Super secure crotch, waist, and side straps . Whistle and easy rear grab handle . Fun animal designs with SOLAS reflective eyes/patches

[PEAKUK.COM](http://PEAKUK.COM)

## ANGRY MULLET - LACHINE

As a parent with a child that's starting to push their limits, everything changes when there is the possibility of a child being sucked down. Most crotch straps don't work, and if the child doesn't tighten the jacket properly, it can come off. The Lachine features an internal sticky neoprene belt that you close around the child's waist. This prevents the jacket being pulled up over the head. Two angled "arm pit" straps are synched down, which prevents the jacket riding up over the chin. And lastly, the snap buckle in the front can be passed through the loop on the LOVE sprayskirt.

**Sizes:** One size (kids 6-12)

[SOULWATERMAN.COM](http://SOULWATERMAN.COM)

## SECUMAR - BRAVO PRINT

The SECUMAR Bravo Print is a 100N foam lifejacket designed for babies and small children, featuring especially soft SECU foam filling. Ideal for boating on inland waterways or in sheltered waters, this lifejacket provides a reliable alternative to inflatable options for keeping kids safe.

**Colors:** Bright Orange/Dolphin Design | **Sizes:** 5-10 kg/11-22 lb . 10-15 kg/22-33 lb . 15-20 kg/33-44 lb . 20-30 kg/44-66 lb

[SECUMAR.COM](http://SECUMAR.COM)

## PEAK PS - RACER PRO YOOF

The perfect first-time PFD for your little paddler, with a low profile cut giving superb comfort & minimum restriction. Great for learning the basics of paddling, but equally at home at a competition or simply splashing around. Discrete removable crotch strap, compatible with spraydeck tunnels.

**Certification:** ISO 12402-5 approved | **Floatability:** 45-60 N of Gaia environmentally friendly soft flotation foam | **Weight (Y):** 520 g/1.15 lb

[PEAKUK.COM](http://PEAKUK.COM)

## NEOKUDO - PADDLER

50 N buoyancy aid approved to DIN EN ISO 12402-5

**Color:** OEM production with brand logo | **Sizes:** Junior . Adult | **Buoyancy:** 25-40 kg/35 N . 40-60 kg/40 N . 60-90 kg/50 N . 90-120 kg/50 N | **Material:** 100% polyester, EPE foam | **Buoyancy chamber type:** Bouyancy aid

[KUDOOUTDOORS.COM](http://KUDOOUTDOORS.COM)

## HIKO - BABY V.2

Good enough is not good enough when it comes to safety gear. When it comes to safety gear for your child the best should be your only option. And this is how we approached the development of the Baby V.2 PFD. Because our own kids wear it. The body is built from 600 D Dupratex Polyester. It is stronger and more durable than previously used 200 D Oxford Nylon. Let your child slide those rocks! PE high flotation foam is resistant against pressure abuse and maintains its flotation for many years. The foam is distributed carefully between the front panels and floating collar to optimize its ability to turn your child head up away from the water. Consecutive piece of high-tension webbing runs all the way from the front of the life jacket, between the legs and up all the way to the collar where it is firmly attached forming a handle. This way you can quickly grab your child, guide it through critical areas or even lift your child up by the handle. High vis fluorescent orange fabric in combination with reflective elements make it easy to spot your child in conditions of lowered visibility - very useful when on the ocean or in dark. When they don't scream loud enough teach your child to use the built-in whistle.

**Colors:** Orange | **Size:** I . II . III **Certification:** ISO 12402-4

[HIKOSPORT.COM](http://HIKOSPORT.COM)

## SEA KAYAK

BUILT TO KEEP THE WATER OUT IN A VARIETY OF CONDITIONS.

NEW  
2025

### LEVEL SIX - LAGOON HALF DECK

The Lagoon is a half-deck splash skirt designed to keep water off your lap and legs from waves and paddle drips. Its lack of a tunnel allows for better airflow, preventing overheating, and ensures you can easily exit the cockpit if you capsize—you'll simply fall out! This premium splash deck includes a front mesh zippered pocket for easy access to snacks and extra gear, while the ballistic nylon abrasion panels provide long-lasting durability. Additionally, a tensioned deck stay bar helps shed water and maintain its shape.

**Features:** 100% recycled and PFAS free nylon . Adjustable bungee rand . Implosion bar . Zippered mesh pocket . Reflective screen printing and reflective piping . Neoprene pull handle . Ballistic nylon abrasion panels

[LEVELSIX.COM](https://LEVELSIX.COM)

NEW  
2025

### LEVEL SIX - MARINER

The Mariner is constructed with our 3-ply, 100% recycled waterproof-breathable nylon. This premium nylon skirt helps regulate cockpit temperature and is equipped with features to tackle any on-water expedition. A front mesh zippered pocket and fixed webbing loops provide easy access to snacks and navigation gear, while ballistic nylon abrasion panels ensure a lifetime of durability. Removable suspenders and an immersion bar help shed water and waves in rough conditions. The bungee cord, encased in Grip-Tex fabric, offers improved rim grip, and the seams are fully taped to create a watertight seal on various cockpits. The double neoprene waist adjustment system allows for a comfortable one-size-fits-most tunnel without digging into your body when tightened.

**Features:** 100% recycled and PFAS free waterproof breathable nylon . Adjustable neoprene waistband . Zippered mesh pocket . Adjustable and removable suspenders . Implosion bar . Grip-Tex bungee sleeve . Adjustable bungee rand . Reflective screen printing and reflective piping . Neoprene pull handle with buckle . Ballistic nylon abrasion panels . Fix webbing loops for map attachment

2025

### LEVEL SIX - NAVIGATOR

The Navigator is constructed with 100% recycled waterproof nylon, making it perfect for coastal exploration. This skirt features removable suspenders and an immersion bar to help shed water and waves in rough conditions. The bungee cord is encased in Grip-Tex fabric for enhanced rim grip, and the seams are fully taped to create a reliable watertight seal on various cockpits. The double webbing waist adjustment with ladder locks provides a comfortable one-size-fits-most tunnel without digging into your body when tightened.

**Features:** 100% recycled and PFAS free nylon . Adjustable double cinch waistband . Implosion bar . Adjustable and removable suspenders . Grip-Tex bungee sleeve . Adjustable bungee rand . Reflective screen printing . Neoprene pull handle with buckle

[LEVELSIX.COM](https://LEVELSIX.COM)

NEW  
2025

### LEVEL SIX - NEO TOUR

The Neo-Tour is our hybrid skirt, combining a 4mm abrasion-resistant Rotex reinforced neoprene deck with a 3-ply waterproof breathable tunnel. It features a double neoprene waist adjustment system for a comfortable one-size-fits-most fit without digging into your body when tightened. Additionally, the skirt includes fixed webbing loops that allow you to bungee on a map, offering the best of both worlds for paddlers.

**Features:** 4mm petroleum free neoprene deck with waterproof breathable tunnel . Adjustable neoprene waistband . Bungee cord rand . Reflective screen printing and reflective piping . Fix webbing loops for map attachment . Neoprene pull handle with buckle

[LEVELSIX.COM](https://LEVELSIX.COM)

NEW  
2025

### LEVEL SIX - SPLASH DECK

The Splash Deck is constructed with 100% recycled waterproof nylon. The bungee cord is encased in Grip-Tex fabric for enhanced rim grip, while the fully taped seams ensure a watertight seal on various cockpits. The double webbing waist adjustment with ladder locks allows for a comfortable one-size-fits-most tunnel, preventing discomfort even when tightened.

**Features:** 100% recycled and PFAS free nylon . Adjustable double cinch waistband . Adjustable bungee rand . Grip-Tex bungee sleeve . Colour coded nylon pull loop with neoprene handle . Reflective screen printing

[LEVELSIX.COM](https://LEVELSIX.COM)

NEW  
2025

### PEAK PS - EXPLORER DECK

A tough and reliable spraydeck designed specifically for sea kayaking and touring. It features bombproof neoprene and latex construction, along with an adjustable shock cord on top for holding maps securely.

**Weight:** 730 g/1.61 lb | **Materials:** 4mm tough-faced neoprene | **Features:** Blind stitched and latex sealed seams throughout . 10mm (9mm Comp) shockcord style deck . Lycra binding on all neoprene edges . Grippy silicone AO print underneath . No seams in the deck section . Adjustable map-holding shockcord on top.

[PEAKUK.COM](https://PEAKUK.COM)

### PALM EQUIPMENT - ROANOKE DECK

For extended kayaking adventures, the right spraydeck is vital. Get the protection of a neoprene deck with the breathability of a fabric waist tube with the Roanoke spraydeck. Equipped with elasticated deck lines and a lightweight, waterproof XP 3-layer waist tunnel, the Roanoke features a durable, reinforced rim and is shaped for comfort on long paddling trips.

**Deck: R3 . R4 . R5 . R6 | Waist: Adjustable (60–127 cm / 23.6–50") | Colors: Jet Grey**

[PALMEQUIPMENTEUROPE.COM](http://PALMEQUIPMENTEUROPE.COM)

### PRIJON - TOURING SPECIAL

The TOURING SPECIAL is a high-quality touring and sea kayak spraydeck. It features a very stretchable material with an abrasion-resistant area at the front, a knee belt, and a grip sling. The latex coating on the inside ensures excellent hold, even on wet cockpit rims. The chimney is made of breathable 3-layer laminate for optimal comfort. The hem width is individually adjustable, and the shoulder straps guarantee a perfect fit and can be removed. These spraydecks are designed for continuous use on rivers, lakes, and the sea. The most important feature is their ability to stay firmly on the cockpit, even in choppy waters or while performing an Eskimo roll.

**Cockpit Sizes: 84-88 cm/33"-34.5" . 92-96 cm/36"-37.5" . 95-105 cm/37.5"-41.5"**

[PRIJON.COM](http://PRIJON.COM)

### PALM EQUIPMENT - LOWESWATER DECK

A lightweight combined neoprene and fabric spraydeck, with drawcord adjustable waist and removable braces for day touring and recreational kayaking.

**Deck: R4 . R5 . R6 | Waist: adjustable (60–127 cm) | Colors: Jet Grey**

## WHITEWATER

BUILT TO KEEP THE WATER OUT IN A VARIETY OF CONDITIONS.

NEW  
2025

### AQUADESIGN - EVOLVE

Designed for whitewater, kayak touring, and sea kayaking excursions, this spray skirt is your reliable ally in all conditions. Meticulously crafted from 4.00mm neoprene with a 3.00mm neoprene waist tube, it strikes the perfect balance between durability and flexibility. Complete waterproofing is guaranteed.

**Cockpit Size:** Keyhole (75/85 cm) . Bigdeck (82/92 cm) | **Waist Size:** S/M . L/XL | **Material:** 4.0 mm Yamamoto® Double-Sided Neoprene | **Color:** Black

[AQUADESIGN.COM](http://AQUADESIGN.COM)

NEW  
2025

### LEVEL SIX - CLASS 6

If you're a paddler pushing your limits and tackling big drops, the risk of implosion could be costly—this skirt is built for you. Constructed from the ground up, it features a thicker neoprene deck with abrasion-resistant lamination on every piece of neoprene except the tunnel. It includes larger Kevlar reinforcement areas, a high-friction underbelly print that grips the cockpit rim, and a thicker rubber rand compared to our Ace sprayskirt. Plus, it's made with petroleum-free neoprene, keeping it green while you send it clean.

**Features:** Stitched ribbed rubber rand . Kevlar reinforced side panels . Pressure relief valve . Customizable tunnel height . 5 mm neoprene deck with an abrasion-resistant lamination.

[LEVELSIX.EU](http://LEVELSIX.EU)

NEW  
2025

### PRIJON - SUPERGRIP

This functional whitewater spraydeck is designed with a pre-shaped deck and reinforced, highly abrasion-resistant materials on the sides and front. Its latex-coated interior and tailored cut ensure a secure fit on Big Hole cockpit rims. Equipped with a large, colored grab handle for easy removal.

**Cockpit size:** Big Hole | **Waist sizes:** 72 cm/28.3" . 79 cm/31.1" . 86 cm/33.9" . 93 cm/36.6"

[PRIJON.COM](http://PRIJON.COM)

NEW  
2025

### PALM EQUIPMENT - ROCKET KIDS' DECK

For the next generation of paddlers, the Rocket kids' deck offers easy fitting with an adjustable shock cord bungee that can be tightened as confidence grows. Velcro waist tabs ensure a snug fit for any size, while the knee-off strap and front pull tab make quick releases effortless. This deck is perfect for the future stars of whitewater.

**Sizes:** One-size R3 (adjustable) | **Colors:** Aqua

[PALMEQUIPMENTEUROPE.COM](http://PALMEQUIPMENTEUROPE.COM)

### HIKO - SENSEI SPRAYSKIRT

Introducing the Sensei, a spraydeck designed for paddlers who demand peak performance in extreme whitewater. Featuring a robust rand for an ultra-secure fit, it resists implosions even in the harshest conditions. Tested in everything from Norway's waterfalls to the Zambezi's rapids, and already Indus-approved, the Sensei is built for the boldest expeditions.

**Material:** e.prene DuraBase 4.0 Alpha | **Colors:** Black | **Sizes - Deck:** 87 . 94 | **Sizes - Waist:** S . M . L . XL . 2XL

[HIKOSPORT.COM](http://HIKOSPORT.COM)

### LEVEL SIX - JACK

The Jack is a bungee-sealed whitewater skirt designed based on the fit and construction of the high-end Ace. It features a super stretchy neoprene deck and a bungee seal that fits easily and comfortably on a variety of cockpit sizes. A flange with urethane glue on the underside enhances the seal against your boat. The Jack is the perfect skirt for paddlers of all levels.

**Features:** Superstretch 2mm neoprene tunnel . Nylon pull loop . Bungee cord rand . Internal silicone grip printing . 4 mm diamond-grid neoprene deck | **Cockpit Sizes:** L . XL | **Waist Sizes:** S-XXL

[LEVELSIX.EU](http://LEVELSIX.EU)

### LEVEL SIX - KING

The King is a rubber-sealed whitewater skirt featuring Rotex neoprene panels for enhanced abrasion resistance against your paddle. Tested on the Ottawa River, the King utilizes a super stretchy neoprene deck that stays dry, provides a secure fit in the cockpit rim, and withstands the most demanding paddling conditions.

**Features:** All-new stitched rand . Superstretch 2mm neoprene tunnel . Rotex abrasion panels . Nylon pull loop . 4 mm deck with Rotex neoprene abrasion panels . Smart stretch natural rubber seal with a ribbed cross-section . Internal silicone grip printing | **Cockpit Sizes:** L . XL | **Waist Sizes:** XS-XXL

[LEVELSIX.EU](http://LEVELSIX.EU)

## SANDILINE - ADVANCED SUPRA

Designed for paddlers seeking total safety, the Spraydeck Advanced Supra is a durable and reliable product. It can be opened using the front handle or the adjustable cross strap, allowing for easy access with just the pressure of your legs. The inner silicone reinforcements enhance the overall strength of the spraydeck while ensuring an excellent grip.

**Material:** Supratex abrasion-resistant neoprene | **Reinforcements:** Silicone anti-slip | **Cockpit Sizes:** Big . Huge | **Tube Sizes:** XS . S . M . L . XL . XXL

[SANDILINE.COM](http://SANDILINE.COM)

## °HF - SILVERBACK

The Silverback spraydeck delivers unmatched safety, superior comfort, an exceptional seal, and outstanding durability. Designed for the demanding paddler, it proves its reliability in tackling the biggest rapids and conquering the highest waterfalls, making it the ultimate choice for whitewater adventures.

**Deck:** 4 mm X-Tuck neoprene with Aramid reinforcement | **Tube:** 4 mm multistretch neoprene with latex reinforcement | **Shockcord:** 9.5 mm (PE kayaks) | **Features:** Release handle with buckle, knee-off strap, Phatlip watertight seal, pretensioned fit, reflective logo | **Seams:** Glued and blind-stitched | **Option:** Silverback Twin (twin tube).

[PADDLEPEOPLE.COM](http://PADDLEPEOPLE.COM)

## °HF - PULSAR

Spraydeck designed specifically for smaller and female kayakers, with tailored detailing. The Pulsar offers a better fit around the body and is easier to secure on the cockpit rim.

**Features:** 4 mm high-performance X-Tuck neoprene with Aramid reinforcements in high-wear areas for durability . Multistretch neoprene at the front for easy donning . 9.5 mm shockcord for PE kayaks, longer for ease of use . Centrally located release handle . Knee-off strap for quick emergency exit . Reflective logo print for visibility | **Materials:** Latex reinforcement for optimal grip . Watertight seal

[PADDLE-PEOPLE.COM](http://PADDLE-PEOPLE.COM)

## PEAK PS - WHITEWATER DECK

The Whitewater Deck is our most rugged spraydeck, designed to withstand the toughest rivers and trusted by top kayakers worldwide. Made from neoprene containing recycled car tire materials in the foam and lining fabrics crafted with recycled yarns, it delivers durability and performance without compromise.

**Weight (key):** 1065 g/2.35 lb | **Features:** Blind stitched and latex sealed seams throughout . 11 mm shockcord style deck . 4 & 4.5mm tough / super tough faced neoprene with used car tyre content . Lining fabrics contain recycled nylon yarns . Grippy silicone underside print . No seams in the deck section . Extra neoprene dry lip around front and sides of FRS deck size only | **Sizes:** FRS . KEY . BIG . HUGE | **Waist:** S . ML . XL

[PEAKUK.COM](http://PEAKUK.COM)

## LEVEL SIX - ACE

The Ace is our most technically advanced sprayskirt, designed for experienced whitewater paddlers and the toughest conditions. Whether tackling big water, advanced play, or creeking, the Ace delivers exceptional performance. Built for durability, it withstands heavy use, including boat-over-boat rescues and whatever challenges the river throws your way.

**Features:** All-new stitched rand . Superstretch 2mm neoprene tunnel . Nylon pull loop . 4 mm deck with Kevlar neoprene abrasion panels . Smart stretch natural rubber seal with a ribbed cross-section . Internal silicone grip printing | **Cockpit Sizes:** L . XL | **Waist Sizes:** S-XXL

[LEVELSIX.EU](http://LEVELSIX.EU)

## PEAK PS - STANDARD DECK

A tight, secure, and durable spraydeck, favored by many elite canoe slalom athletes and suitable for intermediate kayakers alike. It features printed reinforcement on the top side for increased durability.

**Weight:** 630 g/1.39 lb | **Materials:** 4mm tough-faced neoprene | **Features:** Blind stitched and latex sealed seams throughout . 10mm (8mm SC1, SK1) shockcord style deck . Printed reinforcing on top . No seams in the deck section.

[PEAKUK.COM](http://PEAKUK.COM)

## PALM EQUIPMENT - ORBIT DECK

A new look, updated for modern cockpit shapes. Don't buckle under pressure. Our rand is designed to stay on your kayak through even the biggest hits, and the implosion-proof center section absorbs the impacts. Aramid fiber-reinforced KNYtex protects against abrasion on the outside, while Gripsil keeps things in place underneath. An extended body tube, with an O-ring seal, adds to the Orbit's fully loaded checklist of features.

**Deck:** R4 . R5 | **Waist:** XS/S . M/L . XL/XXL | **Colors:** Jet Grey

## PALM EQUIPMENT - GRADIENT 3.0 BOOTS

Winner of Product of the Year 2025 in the Apparel & Equipment category at the Paddle Sport Show, the Gradient 3.0 is built for water adventures. The Vibram sole, made from ultra-sticky Idrogrip rubber with traction lugs, ensures stability on climbs and descents. The midsole's dual-density foam cushions your heel and enhances control, while a neoprene cuff keeps out river grit. Its durable upper, roomy toe box, and removable insole accommodate winter socks. Designed with input from Bren Orton, who rigorously tested the boots, the Sherbet+Turquoise colorway reflects his artistic touch. Tragically, Bren was lost to the river in May 2024. To honor his legacy, a portion of Gradient boot sales supports his family and memorial causes.

**Sizes:** UK 5-14 / EU 38-49 | **Colors:** Black . Sherbet + Turquoise

# GLOVES

WITH A STRONG ABILITY TO KEEP PADDLERS WARM WHEN WET, NEOPRENE MAKES FOR USEFUL LAYERING ON THE WATER.

## PEAK PS - SURPLUS MITTS

Made from our spraydeck pattern lay wastage, the Surplus Mitts, with their shortened style, are super easy to wear while still offering good protection from the elements. Crafted from 4mm waste neoprene with stretch Lycra binding around the edges, and featuring blind-stitched seams and a short/low-profile fit. Velcro secures the Mitts to your paddle shaft; simply pull your hands out when you need to!

**Weight: 180 g/0.40 lb (pair) | Size: One size**

[PEAKUK.COM](http://PEAKUK.COM)

## STORMM RIDE - MUFFLE WINTER GLOVES

Muffle winter nylon gloves - combat chilly weather with these gloves that provide a snug fit around the paddle, allowing you to grip it securely and prevent water from getting in. Easily adjustable at the wrist, allowing you to customize the fit for a comfortable and secure grip. An extra neoprene seal helps to keep water out and warmth in. Available in a universal size to fit most people. Warm lining inside will keep your hands toasty warm even in cold weather.

**Sizes: universal . Standard Paddles: Adult | Material: High quality smooth fleece**

[STORMMRIDE.COM](http://STORMMRIDE.COM)

## NRS - CLUTCH POGIES

#Warmhandsarecool. We all know frozen hands are no good for your paddling or the rescue. These pogies are clutch when you're paddling in frigid conditions, literally. With materials designed to maximize heat retention and product life, the innovative Clutch Pogie will enhance the quality of your cold water (or cold weather) paddling life. Features our thickest neoprene construction and a warm, fuzzy interior with the classic bare-hand design to enhance paddle control for an ultra-warm winter paddling experience.

**Sizes: Universal | Material: 5 mm neoprene . Graphene lining | Color: Black**

[NRS.COM](http://NRS.COM)

## PALM EQUIPMENT - TALON MITTS

An open-palm design with internal finger separation for better control. Made from 3 mm Quick Dry thermal-lined neoprene, with a GlideSkin cuff seal and grippy palm print.

**Sizes: S . M . L . XL | Colors: Jet Grey**

[PALMEQUIPMENTEUROPE.COM](http://PALMEQUIPMENTEUROPE.COM)

## LEVEL SIX - GRITSTONE MITT

The Gritstone mitts are the toughest and most durable mitts in the Level Six line. These mitts employ three different types of neoprene to give you superior warmth and durability without sacrificing comfort. The Gritstone mitts are the ultimate way to keep your hands warm on the water.

**Sizes: S/M . L/XL . XXL**

[LEVELSIX.COM](http://LEVELSIX.COM)

## PALM EQUIPMENT - GRAB GLOVES

The extremely comfortable Grab gloves are made entirely from 2 mm super-stretch neoprene, molded to fit the natural shape of your hand. They are titanium-coated for warmth and feature a PU print for enhanced grip.

**Sizes: XS . S . M . L . XL | Colors: Jet Grey**

[PALMEQUIPMENTEUROPE.COM](http://PALMEQUIPMENTEUROPE.COM)

## LEVEL SIX - GRANITE GLOVE

The Granite gloves are the toughest and most durable glove in the Level Six line. These gloves employ three different types of neoprene to give you superior warmth without sacrificing your dexterity. The Granite gloves are the ultimate way to keep your hands warm on the water.

**Sizes: XS . S . M . L . XL**

[LEVELSIX.COM](http://LEVELSIX.COM)

## PALM EQUIPMENT - HOOK GLOVES

With pre-bent fingers to help prevent fatigue and a lighter weight palm giving better paddle control. Made with Quick Dry thermal lined neoprene, with grippy palm print.

**Sizes: S . M . L . XL | Colors: Jet Grey**

### NRS - MEN'S BENNY BOARD SHORT

A board short made specifically for the fun-loving paddler whose days are spent rowing, scouting side streams, swimming rapids, and cannonballing off the raft at every opportunity. The NRS Men's Benny Board Short features rugged four-way stretch fabric that's comfortable, dries fast, and handles the wear and tear of endless summer days on the water. A non-stretch interior waistband keeps your shorts in place, and three mesh-lined pockets are perfect for stowing essentials.

**Material:** 76% Nylon, 24% Spandex | **Colors:** Deep Teal . Garden Topiary | **Sizes:** 30 . 32 . 33 . 34 . 36 . 38 . 40

[NRS.COM](https://www.nrs.com)

### NRS - WOMEN'S CAMPFIRE FLANNEL

Cool summer evenings on desert runs, crisp adventures amidst the turning leaves, or chilly starts at high water—every season is flannel season. The NRS Women's Campfire Flannel is our take on this timeless classic, featuring a poly/cotton and spandex blend for lightweight warmth and comfort. Add UPF 50+ sun protection, a conveniently placed pocket on the chest with button closure, and a woven 'NRS' label on the pocket that doubles as a sunnies stash spot, and you just found your new favorite camp-to-city layer.

**Material:** 52% Polyester, 46% Cotton, 2% Spandex | **Colors:** Cabernet Plaid . Juniper Plaid | **Sizes:** XS . S . M . L . XL . XXL

[NRS.COM](https://www.nrs.com)

### NRS - POM BEANIE

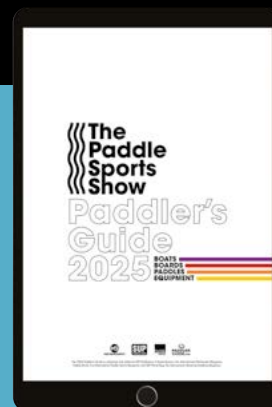

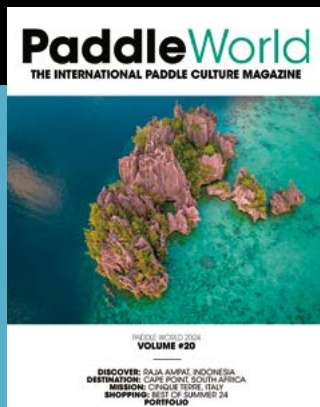

Chunky, funky and designed for cozy comfort, the NRS Pom Beanie is welcome riverside, slope-side, or around the fire pit in your own backyard. 100% acrylic tight knit holds its shape and is easy to wash—if you ever take it off.

**Sizes:** One size fits most | **Material:** 100% Acrylic | **Colors:** Charcoal/Black

## SAFETY ITEMS

EQUIPMENT TO MAKE PADDLING AS SAFE AS POSSIBLE.

NEW  
2025

### HIKO - HAWK/EAGLE/FALCON THROW BAG

HAWK/EAGLE/FALCON: Everyone's Favorite Throw Rope. This throw rope bag offers unmatched durability with a reinforced opening and a collapsible design, secured by a military-grade buckle. Its ergonomic shape is achieved through innovative construction with PE floating foam, providing both space efficiency and added reinforcement. Compatible with the Nest Safety Belt, it attaches effortlessly using a G-hook and quick-release strap. The rope is securely fastened to the bag via a high-tension sling with a metal loop, ensuring easy access and consistent exposure for carabiner attachment.

**Type:** HAWK (10 mm No-Core) . EAGLE (10 mm w/ Core) . FALCON (8 mm w/Core) | **Size:** 10 m/32.8' . 15 m/49.2' . 20 m/65.6' . 25 m/82'

NEW  
2025

### °HF - BIG FISH

The Big Fish throwbag is a compact 20 m essential, featuring a new 9mm kernmantle rope with high abrasion resistance and a clean line design. With a padded karabiner pocket and easy-to-throw construction, it's the perfect choice for demanding whitewater kayakers.

**Length:** 20 m/65'7" | **Rope:** 9 mm/0.35" | **Feature:** Padded karabiner pocket

[PADDLEPEOPLE.COM](https://PADDLEPEOPLE.COM)

### PALM EQUIPMENT - ARC THROWLINE

Compact and speedy, this throwline is ideal for water rescue. The best throwline is the one you always have with you. With a carton-shaped, flat profile, it slips easily into your PFD or stays out of the way on a throwline belt. The Velcro lid retains its shape when open and doubles as a handle, making repacking a breeze. Despite its small size, it holds 12.5 m of 8 mm rope, delivering impressive distance and speed when thrown. The Quickclip carabiner attachment point ensures a clean line and a neat, efficient package.

**Length:** 12.5 m/41'0 | **Colors:** Ocean + Lime

[PALMEQUIPEMENTEUROPE.COM](https://PALMEQUIPEMENTEUROPE.COM)

### °HF - BUNGEE COWTAIL

The Bungee Cowtail is essential safety equipment designed for use with a chest harness. A versatile tool for experienced paddlers in rescue scenarios, it offers multiple applications: towing an exhausted swimmer to safety, connecting to your chest harness in pin situations, securely clipping to a throwline during live bait rescues, serving as an anchor point for a pulley system, and much more.

**Size (unstretched):** 48 cm/18.9" | **Size (fully extended):** 135 cm/53.1" | **Weight:** 105 g/0.23 lb | **Material:** 25 mm/1" tubular nylon webbing with elasticated core, Stainless Steel O-Ring (6.4 mm/0.25" diameter, 50 mm/1.97") | **Breaking Load:** Minimum 5000 N/1124 lb | **Colors:** Red . Black . Lime

[PADDLEPEOPLE.COM](https://PADDLEPEOPLE.COM)

### °HF - PORTER

The °hf Porter throw bag belt is designed for professional water rescue teams and raft guides, offering safety, security, and versatility. It can carry all throw bag sizes, from the small Weasel to the Compact Alpin. Additional webbing loops provide space for carrying safety equipment, such as carabiners, making it an essential tool for any water rescue operation.

**Webbing Width:** 50 mm/2" | **Weight:** 320 g/0.71 lb | **Max. Abdominal Girth:** 165 cm/65" | **Color:** Red/ Black/Yellow | **Throw Bag Not Included**

[PADDLEPEOPLE.COM](https://PADDLEPEOPLE.COM)

## PEAK PS - THROWLINE

The unique, super-strong ring system is tough, lightweight, and easy to clip, making it perfect for quick packing. The comfortable handle ensures convenience, while the new press stud complements the easy-open/close cam buckle system. The 9.5mm rope is tested to EN1981, providing reliable safety. An essential piece of kayaking safety equipment.

**Features:** Marine Grade Stainless Steel Ring . Tough 600D Polyester Ripstop and Nylon Shell . Buoyant Foam Insert . Quick Draining and Drying Base . 9.5mm Floating Polypropylene Rope, Breaking Strength >700kg with Knot, >1100kg without Knot . Reflective Piping . Stiffened Wide Opening . Cam Buckle Closure . Comfortable Handle . Webbing Loops for Guide Belt | **Weight:** 915g/2.02 lb (15m) . 1160g/2.56 lb (20m)

[PEAKUK.COM](http://PEAKUK.COM)

## SANDILINE - 20M THROW BAG

The Sandiline Throwbag is engineered for high performance while maintaining compact dimensions. The 20m Rescue Throwbag features a versatile rope, making it perfect for both expert and amateur kayakers, rescue teams, and anyone seeking an uncompromising rescue solution.

**Length:** 20 m/65.6' | **Diameter:** 8 mm/0.31" | **Breaking Load:** 10 kN/2,248 lb | **Material:** Cordura fabric | **Features:** YKK ultra-fast opening/closing, belt loops, plastic hook for throw bag stowing, reflective inserts | **Color:** Yellow with a red marker

[SANDILINE.COM](http://SANDILINE.COM)

## °HF - WEASEL

The Weasel is a safety throwbag equipped with an 18m rope and compact packing dimensions. This incredibly versatile throwbag is designed to fit in even the smallest kayaks or can be attached to a waist belt for easy carry. It is extra small, lightweight, highly functional, and offers excellent value for money. The bag features system straps for use with a throwbag belt, high-visibility webbing, and a printed specifications and labeling area on the base. Its padded bottom loop and D-ring fixing point enhance usability. The cone-shaped bag has an extra-wide opening, allowing for accurate throws and easy repacking, while the maximum grip material and push-button fastener ensure reliable handling.

**Rope Type:** 7.5mm Core Mantle | **Rope Length:** 18m/59'1" | **Rope Breaking Load/Tensile Strength:** 840 daN/1881 lbf | **Height:** 32 cm/12.6" | **Weight:** 510 g/1.1 lb | **Colors:** Red-Yellow . Black-Yellow . Green

[PADDLEPEOPLE.COM](http://PADDLEPEOPLE.COM)

## KOKATAT - HUCK 50' THROW BAG WITH BELT

The Huck 50' throw bag with a removable belt is the perfect option for paddlers who place a premium on always being prepared for any situation while on the water. Designed to be easy to throw and quick to repack, the compact bag is packed with 50 feet of 1/4-inch floating polyethylene core rope with a maximum strength of 1465 pounds. The quick-release, adjustable Nylon belt allows paddlers to wear the bag on their waist or in their lap. Ergonomically designed to fit flat against the body, the Huck bag has a quick-drying mesh top, foam side panels for flotation and reflective piping.

**Size:** 15.3 m/50' | **Color:** Mantis

[KOKATAT.COM](http://KOKATAT.COM)

## KAJAK FREAK - INFLATABLE FLOAT FOR GREENLAND PADDLE

At Kajak Freak, we've noticed a growing interest in the traditional Greenland paddle, especially among older paddlers who value its ergonomic benefits. This float is specially designed to fit Greenland paddles securely, ensuring no slippage and offering reliable support during rescues.

**Length:** 490 cm/16'1" | **Width:** 90 cm/35.4" | **Weight:** 38 kg/83.7 lb | **Max. Cap.:** 450 kg/992 lb | **Material:** CoreLite (Foam Core HDPE) | **Colors:** Fuego Orange . Olive Green . Aqua Blue | **Sizes:** 149 . 162

[KAYAKFREAK.DK](http://KAYAKFREAK.DK)

## °HF - ALIENS HMS SCREW

The Aliens HMS Screw Karabiner is a classic aluminum karabiner designed for reliability and ease of use. Weighing just 88g, it's lightweight for its class, yet durable enough for demanding tasks. The 23mm gate opening makes it easy to insert ropes or clip into anchor points. Its round profile ensures smooth and uninterrupted movement of ropes, cords, and slings, providing large, continuous contact surfaces for better control of slip knots and protecting the rope and slings. The carabiner also handles the 'half-mast throw' technique efficiently, making it a versatile tool for climbers and paddlers alike.

**Size:** Weight: 88 g/0.19 lb | **Material:** Aluminum | **Karabiner Type:** HMS | **System:** Keylock | **Minimum Breaking Load (closed):** 25 kN/5620 lb | **Minimum Breaking Load (open):** 8 kN/1799 lb | **Minimum Breaking Load (across):** 9 kN/2023 lb | **Snap Opening Screwlock:** 22 mm/0.87" | **Finish:** Anodized | **Identification:** Individual numbering | **Norms:** CE • EN 12275 • EN 362 | **Colors:** Black . Red . Blue

## KNIVES

RIVERS AND FISHING SPECIFIC SAFETY KNIVES OF ALL SHAPES AND SIZES.

NEW  
2025

### TAHE - RESCUE KNIFE

This rescue knife features a fixed safety blade with a durable Stainless 420 construction and titanium coating for corrosion resistance. The hard sheath securely attaches to a lifejacket, ensuring easy access in critical situations. Equipped with a push-button mechanism for quick, hassle-free handling, this knife is designed for reliable performance during swiftwater rescues and emergency scenarios.

**Length (blade): 7.6 cm/3" | Length (with sheath): 18.5 cm/7.3" | Weight: 60 g/2.1 oz | Material: Polypropylene . Stainless 420 . Titanium | Colors: Yellow**

[TAHESPORT.COM](https://www.tahesport.com)

NEW  
2025

### NRS - PHOTIC KNIFE

A knife designed specifically for the globe-trotting paddler. The NRS Photic Knife adapts the versatile fan-favorite features of the NRS Pilot Access Knife to a smaller, easier-to-carry and stow design that's a breeze to use with one hand or while wearing gloves. A stainless-steel blade and textured, all-weather G10 handle provide exceptional strength while retaining a lightweight feel.

**Length: 16.18 cm/6.37" | Blade length: 6.5 cm/2.56" | Blade material: 420 HC Stainless Steel | Blade Edge: Smooth and Serrated | Blade Tip: Blunt | Colors: Black . Flare . Safety Yellow**

[NRS.COM](https://www.nrs.com)

### NRS - PILOT KNIFE

Professional and recreational boaters love the extra length and practical features of the Pilot Knife. Purpose-built for performance on freshwater and to pair with a PFD but so versatile that you'll keep one in the car, the camp bin and the garage. The partially serrated edge features 'reverse scallop' serrations to facilitate severing tough fibers. The low-profile, quick-release Thumbs Up Sheath™ stashes fixed blades away securely and releases with a one-handed flick of the thumb. Jiming along the top of the blade edge secures thumb placement and prevents grip slippage while an asymmetrical handle and blade and blunt tip ensure proper blade orientation and help prevent injury.

**Length: 18.41 cm/7.25" | Blade Length: 9.14 cm/3.6" | Weight: 125 g/4.4 oz | Blade Material: 420 HC Stainless Steel | Handle Material: Glass-Reinforced Polypropylene, Rubber | Sheath Material: Glass-Reinforced Polypropylene, Rubber | Colors: Red . Flare . Safety Yellow . Black**

[NRS.COM](https://www.nrs.com)

### NRS - CO-PILOT KNIFE

The NRS Co-Pilot knife lives up to its name. The compact design and lie-flat sheath pair seamlessly with your PFD, while features such as smooth and scalloped cutting edges and blunt safety tip are trusted by professional and recreational boaters worldwide. All-weather G10 handle with hand contouring and comfortable, rubberized grip gives maximum blade control in wet environments. Accompanying low-profile, quick-release Thumbs Up Sheath™ stashes fixed blades away securely and releases with a one-handed flick of the thumb.

**Length: 15.24 cm/6" | Blade Length: 7.12 cm/2.8" | Weight: 99 g/3.5 oz | Blade Material: 420 HC Stainless Steel | Handle Material: Glass-Reinforced Polypropylene, Rubber | Sheath Material: Glass-Reinforced Polypropylene, Rubber | Colors: Red . Flare . Safety Yellow . Black**

[NRS.COM](https://www.nrs.com)

### NRS - PILOT ACCESS FOLDING KNIFE

Take the quality performance and dependability of our legendary Pilot series anywhere with the Pilot Access Folding Knife. Compact, versatile and fully featured, with a partially serrated blade, the Pilot Access goes from your PFD to your pocket without missing a cut. The asymmetrical handle and blade, along with the blunt tip, ensure proper blade orientation and help prevent injury, while all-weather G10 handle and comfortable, rubberized grip maximize blade control in wet environments. Dual position pocket carry clip for pant or PFD pocket—just don't forget to throw it in your checked luggage when you fly!

**Length: 18.41 cm/7.25" | Blade Length: 6.98 cm/2.75" | Weight: 127.5 gr/4.5 oz | Colors: Black . Flare . Red . Safety Yellow**

[NRS.COM](https://www.nrs.com)

### NRS - TITANIUM CO-PILOT KNIFE

The same trusted performance and features of the ever-popular Co-Pilot, with a titanium blade for saltwater use. Compact, lightweight, corrosion-resistant and tough. An asymmetrical handle and blade, along with the blunt tip, ensure proper blade orientation and help to prevent injury in a tight rescue situation, while all-weather G10 handle with hand contouring and comfortable, rubberized grip maximize blade control in wet environments. Accompanying low-profile, quick-release Thumbs Up Sheath™ stashes fixed blades away securely and releases with a one-handed flick of the thumb.

**Length: 15.24 cm/6" | Blade Length: 7.12 cm/2.8" | Weight: 99 gr/3.5 oz | Colors: Black**

### NRS - PUREST MESH DUFFEL BAG

The go-to gear bag for boaters. The Purest Mesh Duffel's ripstop nylon lower and mesh upper are built to air out river funk yet withstand the stress of life on the go or in the wild. A cylindrical main compartment makes packing easy while the end pocket separates wet from dry, giving the impression of being well-organized. Features sturdy webbing carry handles and a detachable padded shoulder strap. Zippered accessory side pocket secures small items, like your wallet, phone and keys.

**Material:** 420 Denier Ripstop Nylon, Polyester Mesh | **Sizes:** 40 L . 60 L . 90 L | **Colors:** Black . Salsa . Navy | **Dimensions:** (40 L) 56x30x30 cm/22"x12"x12" . (60 L) 66x34x34 cm/26"x13.5"x13.5" . (90 L) 76x39x39 cm/30"x15.25"x15.25" | **Closure:** Dual Slider Zipper

[NRS.COM](http://NRS.COM)

## EASTPOLE PADDLES - PADDLE BAG FOR 2-PIECE GREENLAND PADDLES

A 3-layer paddle bag that has good protection against impacts during transportation.

Length: One size 115-120 cm

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

## NRS - QUICK CHANGE DUFFEL

The Quick Change Duffel turns highway turns and crowded parking lots into clean, open-air changing rooms. Pre-paddle, lay out the included circular mat to protect dry suit feet and prevent the one-shoe-shuffle. Post paddle, pile wet gear into the mesh-edged changing mat, and cinch tight. Zippered accessory sides pocket on the side stashes small items, like your wallet, phone and keys; separate end pocket includes a mini key hook.

**Material:** 420 Denier Ripstop Nylon, Polyester Mesh  
**| Colors:** Black  
**| Sizes:** 60 L . 90 L  
**| Dimensions:** (60 L) 66x34x34 cm/26"x13.5"x13.5" . (90 L) 76x39x39 cm/30"x15.25"x15.25"  
**| Closure:** Dual Slider Zipper

[NRS.COM](http://NRS.COM)

## PEAK PS - KIT BAG

Featuring a dry bag-style roll-top closure, the Kit Bag, with its legendary size, is one of the best ways to keep your gear organized. It's super useful for transporting all your equipment up and down the beach when sea kayaking. The removable, adjustable shoulder straps can cleverly convert the Kit Bag into a rucksack or chair when paired with a camping thermarest.

**Dimensions:** 70x110 cm/27.6"x43.3" Flat  
**| Features:** Durable PU Coated 420D Nylon . Fully Taped Seams . Roll Top Closure . Adjustable Twin Shoulder Straps . Converts to Rucksack or Camping Chair  
**| Weight:** 655 g/1.44 lb

[PEAKUK.COM](http://PEAKUK.COM)

## EASTPOLE PADDLES - PADDLE BAG FOR GREENLAND PADDLES

A 3-layer paddle bag that has good protection against impacts during transportation.

**Length:** (M) 210-220 cm/82.7"-86.6" . (L) 220-230 cm/86.6"-90.6" . (XL) 230-240 cm/90.6"-94.5"

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

## LEVEL SIX - PORTER L

The Porter drybag is your go-to 100% dry and durable duffel, whether you're wearing it as a waist pack while rappelling down a canyon wall, lashing it to your raft, cramming it in the back of your creek boat, or securing it under your SUP bungee. This bag is incredibly versatile and ready to carry extra clothing, lunch, a first aid kit, and maybe even some post-activity beverages!

**Features:** Waterproof T-Zip entry zipper . Daisy chain accessories attachment webbing . Quick release belt compatible . Internal mesh storage pocket  
**| Color:** Black/Red  
**| Sizes:** 20 L  
**| Dimensions:** 43x25x25 cm/16.9"x9.8"x9.8"  
**| Volume:** 20 L/5.3 gal

[LEVELSIX.EU](http://LEVELSIX.EU)

## LEVEL SIX - PORTAGE

Designed to hold all your paddling gear, the 90-liter Portage gear bag features large ventilating mesh panels to help dry your gear while being stored. The tough outer TPU material makes it highly abrasion-resistant for repeated use outdoors. The bag also includes a leakproof wet gear section to keep your clothes separated and dry. The multiple webbing handles and loops help make unloading and handling easier. The removable shoulder straps make it ideal for any long-distance traveling on foot and traveling through airports. The Portage is the ultimate gear bag for any back-country paddling expedition.

**Capacity:** 90 L  
**| Sizes:** (Expanded) 70(+5)x40x40 cm . (Collapsed) 40x4x11 cm  
**| Materials:** 500 D PVC . Polyester 420 D . double PU coated with binding tape

[LEVELSIX.EU](http://LEVELSIX.EU)

## PALM EQUIPMENT - RIVER TREK DRYBAG

With a heavy-duty padded shoulder harness the River Trek is comfortable to carry fully loaded.

**Colors:** Chilli + Jet Grey  
**| Sizes:** 125 L . 100 L . 75 L . 50 L

## TRANSPORT

ACCESSORIES TO EASILY TRANSPORT YOUR GEAR OR KAYAK TO THE RIVER, SEA OR OCEAN.

### PRIJON - V-SHAPE MINI

A compact, stainless steel boat cart specially designed for slim kayaks with a sea kayak-style keel line and bottom. Its strong, elastic rubber strap allows for quick attachment to the kayak, ideal for transport from car to water or for portages during trips. The rubberized longitudinal supports keep the kayak securely in place without slipping. Comprising just three parts—a one-piece frame and two wheels—the V-SHAPE MINI is easy to assemble and disassemble. Its small size means it can be stowed on the kayak deck or in most hatches. Maximum stability with minimal weight! Note: Suitable only for kayaks with a pronounced V-keel.

**Width: 23 cm/9.1" | Height: 20 cm/7.9" | Weight: 1.3 kg/2.9 lb | Material: Stainless-steel**

[PRIJON.COM](https://www.prijon.com)

### LEVEL SIX - COCKPIT COVER

The Cockpit Cover is made from heavy-duty, waterproof, PFAS-free TPU-coated nylon, ensuring durability with superior tear resistance and UV protection. The bungee cord is encased in Grip-Tex fabric for enhanced grip on the rim, and the seams are fully taped to provide an excellent watertight seal for various cockpits.

**Features: PFAS Free TPU Coated nylon . Adjustable bungee . Griptex bungee sleeve . 100% PFAS FREE . Bungee Deck Clip . Tether Hook on Handle**

[LEVELSIX.EU](https://www.levelsix.eu)

### PRIJON - STEEL L

The Round Support Bars are designed for the transport of all types of kayaks and canoes. Ideal for moving your kayak from the car to the water, around a hydro plant, or during touring kayaking. The STEEL L frame is made of stainless steel, ensuring it is completely corrosion-free. The new plug-in technology, with stainless steel springs, allows for a construction without any loose parts. The PU foam wheels are lightweight and cannot lose air, making them perfect for transportation on hard ground. Their large size ensures easy rolling on firm surfaces. This boat cart is mounted at the center of the kayak, and it can be easily dismantled into five compact pieces for storage.

**Width: 50 cm/19.7" | Height: 29 cm/11.4" | Weight: 3.3 kg/7.3 lb | Material: Stainless-steel**

[PRIJON.COM](https://www.prijon.com)

### ECKLA - BOARD - TRAILER

Bike Trailer for SUP Boards, complete set, transport cart and towbar, coupling must be ordered separately, pneumatic wheels and made in Germany

**Weight: 6 kg/13 lb | Max. Cap.: 30 kg/66 lb | Material: Aluminum | Colors: Silver . Grey**

[ECKLA.DE](https://www.eckla.de)

### ECKLA - FOLLOWER

The ECKLA-Follower is a bicycle tow bar designed for transporting kayaks, canoes, and surfboards. Paired with an ECKLA canoe cart or ECKLA-Canyon, it transforms into a practical bike trailer. Both the length and height are fully adjustable for added convenience.

**Length: 350 cm/11'6" | Width: 80 cm/31.5" | Weight: 14 kg/30.8 lb | Max. Cap.: 35 kg/77 lb | Material: Steel, powder-coated | Colors: Orange**

[ECKLA.DE](https://www.eckla.de)

### ECKLA - MAUI

SUP transport cart, foldable, Aluminum, easy to use, with pneumatic or puncture-proof wheels and made in Germany.

**Length: 70 cm/2'2" | Width: 44 cm/17.3" | Height: 47 cm/18.5" | Weight: 5 kg/11 lb | Max. Cap.: 40 kg/88 lbs | Material: Aluminum | Colors: Silver . Black**

[ECKLA.DE](https://www.eckla.de)

## STORAGE |

### SURFLOGIC - VEST HANGER VPRO

The Vest Hanger Vpro from Surflogic is the ideal accessory for drying and maintaining your vests and wetsuits. Designed for convenience, it features an integrated handle for easy carrying and allows for effortless hanging. This robust yet lightweight hanger promotes fast drying while reducing fabric stress, thereby prolonging the life of your gear. The removable hook with 360° rotation ensures easy access, while the adjustable, strong strap and foam-covered aluminum carabiner provide a secure hold. Whether at home or on the go, the Vest Hanger Vpro is essential for every water sports enthusiast.

**Size: 440x30x290mm / 17.32"x1.18"x11.41"**

[SURFLOGIC.COM](https://www.surflogic.com)

### SURFLOGIC - WETSUIT HANGER MAXI

The Wetsuit Hanger Maxi from Surflogic is the ultimate solution for drying and caring for your wetsuit, gloves, boots, and hood. Designed for convenience, it allows you to hang all your gear on one hanger, ensuring fast drying while reducing fabric stress and extending the lifespan of your wetsuit. Its robust yet lightweight design features a removable hook with 360° rotation for easy access. The adjustable, durable strap and foam-covered aluminum carabiner provide secure hanging, whether at home or on the go.

**Size: 455x40x540 mm / 17.91"x1.57"x21.25"**

[SURFLOGIC.COM](https://www.surflogic.com)

### KAJAK FREAK - STORELOCK – WALL MOUNT FOR SEA KAYAK

Our wall mount offers practical storage and enhanced security for sea kayaks. Made from hot-dip galvanized iron, it includes a built-in lock to prevent theft and block access to the mounting screws. The adjustable design ensures compatibility with all types of sea kayaks.

**Length: 97 cm/38.2" | Width: 24 cm/9.4" | Air Chamber Diameter: 80 cm/31.5" | Thickness: 14 cm/5.5"**

## KAJAK SPORT - SHAFT FERRULE 2

The Kajak Sport Paddle Ferrule 2 sets the standard for paddle adjusters with its simple yet durable construction. A clear white scale and sleek design ensure precise, easy adjustments and excellent comfort. Engineered for smooth, reliable operation, it's made from high-tech, corrosion-free plastic, guaranteeing long-lasting performance in both freshwater and saltwater environments.

**Length: 55 mm/2.2" | Weight: 31 g/1.1 oz | Sizes: Multiple sizes available to fit all paddle shafts on the market**

[KAJAKSPORT.FI](http://KAJAKSPORT.FI)

## TIP - INMOLD ROTOTRANSTIP 873

The In'Mold Roto-Transtip® 871-873 range offers quick and easy application with a self-sticking system that simplifies the process. Unlike traditional methods, this innovative solution eliminates the need for time-consuming friction or additional adhesives. Designed for use in various mold types, it guarantees a seamless finish without adhesive residue after rotational molding. Its durability ensures that your color chart is maintained even after processing.

**Application Temperature: Smooth Mold: 20°C/68°F to 70°C/158°F | Fine Grain Mold: 30°C/86°F to 50°C/122°F | Adhesive Residue: None after rotational molding | Resistance: Abrasion-resistant and resistant to conventional cleaning agents | Durability: Color fidelity maintained post-rotational molding**

[TIPSERIGRAPHIE.COM](http://TIPSERIGRAPHIE.COM)

## TIP - POST MOLD ROTOTRANSTIP 888

The Postmold Roto-Transtip® 888 - 877 range features a self-adhesive system that allows for graphic and decal application immediately after the rotomolding process, whether it's one day, one week, or even one year later. This range boasts the brightest colors available on the market and offers all-inclusive costs for transport, art-proofing, and new design setup. With express transport options available throughout Europe, this product ensures convenience and efficiency. It provides an easy, fast application process, making it a smart and robust alternative to In'Mold solutions.

**Application: Easy, simple, and fast; suitable for post-production use | Application Timing: Can be applied one day, one week, or one year after rotomolding | Color Quality: Offers the brightest colors available | Shelf Life: One year**

[TIPSERIGRAPHIE.COM](http://TIPSERIGRAPHIE.COM)

## KAJAK SPORT - FOOTREST 3 ALUMINIUM

The Kajak Sport Footrest 3 is a robust yet lightweight system designed for high-end sea kayaks that require stiffness, reliability, and comfort. Perfect for kayaks with a skeg for tackling rough seas and rock gardens, this footrest ensures optimal performance. Its universal fit, with added installation tolerance, ensures compatibility with almost any kayak. The unique spring-loaded pedal lock guarantees secure and reliable operation in all conditions.

**Length: 398 mm/15.7" | Height: 55 mm/2.2" | Weight: 566 g/20 oz | Mounting Distance: 370 mm ± 5 mm/14.6" ± 0.2"**

[KAJAKSPORT.FI](http://KAJAKSPORT.FI)

## NORTIC - KAYAK SAIL

Enhance your kayaking experience with the nortik kayak sail—a lightweight and easy-to-use sail system that turns any kayak into a wind-powered vessel. Made in Germany, it's compatible with rigid, folding, and hybrid kayaks for versatile use. The sail's design ensures it won't interfere with paddling and deploys in seconds with a simple pull—no complicated setup required. Mounting the sail is quick and hassle-free with the included kit, allowing easy attachment to any kayak. Crafted from durable ripstop nylon and fiberglass rods, the sail packs down compactly, storing neatly on deck or in the cockpit. For paddlers seeking a convenient wind-powered solution, the Nortik kayak sail combines exceptional performance with German engineering and ease of use.

**Sizes:** 0.8 sqm/8.6 sq ft . 1.0 sqm/10.8 sq ft | **Weight:** Min. 0.9 kg/2.0 lb | **Packed Size:** 130x15x6 cm/51.2"x5.9"x 2.4" | **Material:** Fiberglass . Aluminum | **Colors:** White

[FALTBOOT.DE](http://FALTBOOT.DE)

## RTM - SEAVIEW E-BOARD

The SEAVIEW E-BOARD is designed for underwater exploration, featuring multiple handles and supports for enhanced safety. Its ergonomic design allows swimmers to comfortably position themselves while paddling, providing an optimal view of the underwater world through the integrated optical lens. Ideal for snorkeling adventures, this board combines comfort and functionality, making it a perfect companion for aquatic exploration.

**Length:** 140 cm/4'7" | **Width:** 65 cm/25.6" | **Depth:** 27 cm/10.6" | **Weight:** 8.8 kg/19.4 lb | **Max. Cap.:** 1 person | **Max. Charge:** 120 kg/264.6 lb

# BOARD ACCESSORIES |

## ECKLA - BOARDSEAT II

The ECKLA BOARDSEAT II is a paddle seat attachment for SUPs and surfboards, easy to mount and fully adjustable to fit any body size. Made from lightweight aluminum, the soft seat secures to any board with straps and features a footrest for optimal power transfer during paddling, ensuring fun on the water—even on calm, windless days. It also doubles as a transport aid for carrying the SUP's storage bag or the inflated board!

**Length:** 120 cm/3'11" | **Width:** 50 cm/19.7" | **Weight:** 5 kg/11 lb | **Max. Cap.:** 110 kg/240 lb | **Material:** Aluminum | **Colors:** Silver . Blue

[ECKLA.DE](http://ECKLA.DE)

## F2 - ELECTRIC FIN PRO

The F2 E-fin PRO brings the latest e-fin technology, automatically detecting your paddling and boosting each stroke with extra power. It also offers manual mode for continuous power control. The controller easily attaches to your paddle or wrist, making it ideal for both surfing and cruising. Designed for versatility, the E-fin PRO includes a US box and slot box adapter, ensuring compatibility with SUPs, surfboards, kayaks, and small inflatables. Its all-in-one design eliminates the need for external batteries or cables—just the fin and a wireless controller—for a faster, more efficient ride on the water.

**Power:** 600 W | **Controller:** Radio controller for paddle mounting or wrist wear | **Drive:** Paddle assist with stepless continuous drive | **Design:** All-in design (no cables or external battery) | **Mounting:** US Box and Slot-IN adapter | **Battery Life:** Up to 6 hours | **Continuous Power Options:** 600 W/2 h . 400 W/3 h . 200 W/4 h . 100 W/5 h

[F2BOARDS.COM](http://F2BOARDS.COM)

## F2 - AXXIS SMART

The F2 SUP SMART BOX is a patented, waterproof, integrated storage system that redefines traditional SUP boards. Made from durable plastic, the 15 cm deep round box is seamlessly connected to the drop stitch system and discreetly positioned beneath the EVA pad at the board's rear. Perfect for day trips, it offers space for valuables, chilled drinks, or sunscreen, all safely secured with a twist-seal lid. The SMART BOX also houses a battery-powered pump, inflating the board in under 10 minutes, with enough charge to inflate two boards. Standard pump connections allow for manual inflation if needed, ensuring easy setup and storage.

**Board Dimensions:** 10.5' (320x82x15 cm) . 11.6' (354x84x15 cm) . 12.2' (372x86x15 cm) | **Color:** Blue

## HIGH END

LIGHTWEIGHT CONSTRUCTION AND ADVANCED TECHNOLOGY CREATE A HIGH PERFORMANCE PADDLE.

### AQUA BOUND - ULTRALIGHT TETRA

Aqua Bound's premium ultralight touring paddle offers maximum weight reduction and durability with a full foam core and patent-pending LAM-LOK™ edge protection technology. Its holographic design enhances visibility on the water, contributing to the paddler's safety.

**Fixed Lengths:** 200 cm/6'6" to 250 cm/8'2" in 5 cm/2" increments | **Adjustable Lengths:** 200 cm/6'6" to 260 cm/8'6" with 10 cm/4" of adjustability | **Blade Size:** 632 sq. cm/98 sq. in | **Weight:** 602 g/21.2 oz - 625 g/22 oz | **Shaft Options:** Straight or bent | **Shaft Material:** Carbon spread tow weave | **Blade Material:** Full foam core with carbon spread tow weave and aramid stitching

[AQUABOUND.COM](http://AQUABOUND.COM)

### LETTMANN - ERGONOM PRO SEA

Our Ergonom Pro Sea paddle is designed for long-distance kayakers and is perfectly suitable for sea and touring kayakers who prefer a narrower blade. Its slim blades ensure excellent propulsion, thanks to the foam core and hydrodynamically formed design. The ergonomic shaft allows you to paddle for extended periods while preserving your wrist joints, as it positions your hands perfectly to avoid straining your tendons, ligaments, and muscles. Additionally, it is made from high-end, durable materials that offer a long lifespan.

**Blade Length Small :** 52cm | **Blade Width Small:**152 | **Blade Length Large:** 52cm | **Blade Width Large:**162 | **Weight:** 0.81 kg/1.8 lb | **Material:** Carbon-Aramid | **Sizes:** Large . Small

[LETTMANN.DE](http://LETTMANN.DE)

### LETTMANN - ERGONOM PRO TOUR

Designed for kayakers to paddle with ease and without straining your wrists, our Ergonom Pro Tour paddle sets a milestone in the world of kayaking by establishing a foundation for comfortable paddling. The ergonomic shaft automatically stabilizes the blades, thanks to the upstream pressure point of the hands and minimized wrist bending. This results in flutter-free strokes, reduced holding force, and less abrasion on the tendons and ligaments of your wrists. Building on this excellent foundation, we've added our profiled paddle blade, which generates strong pressure build-up due to its hydrodynamic lift. Every bit of power you put in translates effectively into the water, preventing you from wasting your strength.

**Blade Length Small :** 47cm | **Blade Width Small:**190 | **Blade Length Large:** 47cm | **Blade Width Large:** 203 cm | **Weight:** 0.89 kg/2 lb | **Material:** Carbon-Aramid | **Sizes:** Large . Small

[LETTMANN.DE](http://LETTMANN.DE)

### LETTMANN - NITRO TOUR

Now, many years after the introduction of our ergonomic shaft, we aim to please those who prefer a straight shaft paddle. Therefore, we created the Nitro, which closely resembles the advantages of our ergonomic design. With the Nitro, we positioned the blade further forward to achieve a more efficient stroke. This design also enhances pressure build-up, shifts the pressure point to the front, and reduces the typical fluttering of straight shaft paddles to a minimum.

**Blade Length Small :** 47cm | **Blade Width Small:**190 | **Blade Length Large:** 47cm | **Blade Width Large:** 200 cm | **Weight:** 0.87 kg/1.9 lb | **Material:** Carbon-Aramid | **Sizes:** Large . Small

[LETTMANN.DE](http://LETTMANN.DE)

## VE PADDLES - AIRCORE FARA PADDLE

Lightweight with excellent water feel, this midsize blade delivers power with a pronounced catch while maintaining a low swing weight to enhance endurance.

**Length:** 200-210 cm . 210-220 cm . 220-230 cm . 230-240 cm + custom length | **Feather:** adjustable 0°-90° | **Shaft:** carbon (glass option available) | **2-piece adjustable straight shaft** | **650 cm²:** blade area

[VEPADDLES.COM](http://VEPADDLES.COM)

## SELECT PADDLES - XBLADE

The X.BLADE paddle is a concentrate of SELECT's technological know-how. The extremely thin blades are curved and responsive. They offer moderate blade flex for a very stable and comfortable push through the water. The X.BLADE is an ultra légère paddle, made entirely of pré-preg carbon.

**Blade Size:** 550 cm²/85 in² . 590 cm²/91.5 in² . 660 cm²/102 in² . 720 cm²/111 in² | **Shaft Option:** Bent . Straight | **Material:** Carbon Fiber

[SELECT-PADDLES.COM](http://SELECT-PADDLES.COM)

## PRIJON - STREAM

Light, stiff, and offering excellent power transmission! The STREAM paddle is made from high-quality carbon or fiberglass fibers, pressed under high pressure and temperature. Its blade profile allows for construction without a central core, making it very stiff and preventing flutter. With a slightly flatter shape, the STREAM is also ideal for sea kayaking, gliding effortlessly through the water while being highly energy-efficient. Available in fiberglass (red and blue) and carbon.

**Length:** 215-240 cm/7'1"-7'10" (5 cm steps) | **Weight:** 880 g/31 oz | **Blade Size:** 720 cm²

[PRIJON.COM](http://PRIJON.COM)

## PRIJON - HYDRA

A lightweight touring and sea kayak paddle designed for powerful paddlers. The large foam-core blades of the Hydra paddle provide exceptional stiffness and optimized power transfer for efficient paddling. Suitable for both low- and high-angle techniques, the blade design supports a wide variety of strokes while maintaining energy efficiency for endurance-focused paddling. Its low weight further enhances comfort and reduces fatigue during long trips. Available in fiberglass (red or blue) and carbon, with options for fixed, adjustable, or bent shafts to suit your preferences.

**Length:** 215-240 cm/7'1"-7'10" (5 cm steps) | **Weight:** 860 g/30.4 oz | **Blade Size:** 720 cm²

[PRIJON.COM](http://PRIJON.COM)

## WERNER PADDLES - CAMANO

A beautiful island located in Washington's Puget Sound, close to where our story began. The Camano features our most popular award-winning blade design. This paddle provides enough power to cover a day's journey with ease while using a relaxed, all-around low-angle stroke. Combined with a perfect fit and performance design features, you can outfit yourself for a lifetime of paddling.

**Blade Length x Width:** 52x16.5 cm/20.5"x6.5" | **Length Range:** 210-240 cm/82.7"-94.5" (in 5 cm increments) | **Feather Angle:** Smart-View Adjustable | **Blade Surface Area:** 650 cm² | **Weight:** 792 g/28 oz | **Shaft Option:** Bent | **Pieces:** 2 Piece

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

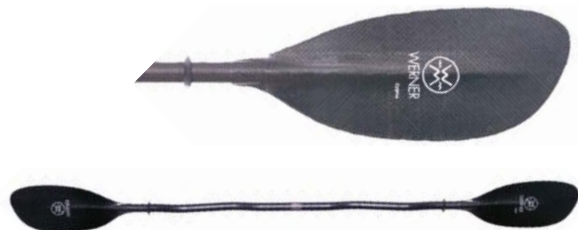

## WERNER PADDLES - CYPRUS

The Cyprus is our most advanced high-angle paddle, featuring our best paddling design and construction elements. You'll experience exceptionally light, buoyant strokes, while the smooth back face ensures a quiet entrance and exit from the water. The Cyprus is the smart choice for those playing or cruising with a high-angle style of paddling and seeking the conservative feel of a mid-sized blade.

**Blade Length x Width: 52x16.5 cm/20.5"x6.5" | Length Range: 210-240 cm/82.7"-94.5" (in 5 cm increments) | Feather Angle: Smart-View Adjustable | Blade Surface Area: 650 cm² | Weight: 792 g/28 oz | Shaft Option: Bent | Pieces: 2 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

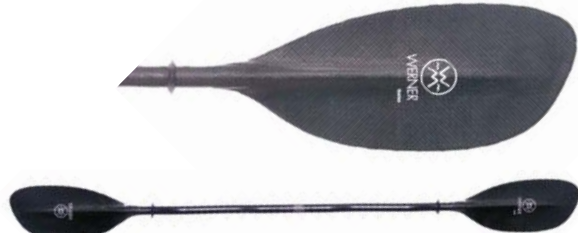

## WERNER PADDLES - IKELOS

The assistant to the Greek god of dreams, Ikelos, crafted dreams so vivid that they were believed to be true. The Ikelos is our most advanced high-angle paddle, with our best paddling design and construction features. You'll experience exceptionally light, buoyant strokes, while the smooth back face provides a quiet entrance and exit from the water. The award-winning Ikelos is the smart choice for those playing or cruising with a high-angle style of paddling, offering the powerful feel of a full-sized blade.

**Blade Length x Width: 52x16.5 cm/20.5"x6.5" | Length Range: 210-240 cm/82.7"-94.5" (in 5 cm increments) | Feather Angle: Smart-View Adjustable | Blade Surface Area: 650 cm² | Weight: 792 g/28 oz | Shaft Option: Bent | Pieces: 2 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

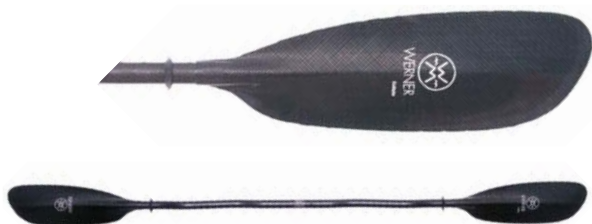

## WERNER PADDLES - KALLISTE

Greek for "the best," the Kalliste perfectly describes its feeling on the water. The Kalliste is our most advanced low-angle paddle, featuring our best paddling design and construction features. You'll experience exceptionally light, buoyant strokes, while the smooth back face ensures a quiet entrance and exit from the water. The Kalliste is the smart choice for those touring with a low-angle style of paddling, offering the conservative yet powerful feel of a mid-sized blade.

**Blade Length x Width: 52x16.5 cm/20.5"x6.5" | Length Range: 210-240 cm/82.7"-94.5" (in 5 cm increments) | Feather Angle: Smart-View Adjustable | Blade Surface Area: 643 cm² | Weight: 712 g/25.25 oz | Shaft Option: Bent | Pieces: 2 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

## WAVEDESIGN - HIGH ANGLE

The HIGH ANGLE is a full carbon kayak touring paddle designed for powerful, efficient strokes. It features three blade sizes, one-piece or two-piece options, and three shaft flex indexes, with oval indexing available for both right- and left-handed paddlers.

**Weight: 0.65 kg/1.43 lb | Blade Size: 670 cm²/103 in² | Material: Carbon**

[WAVEDESIGN.COM](http://WAVEDESIGN.COM)

## WAVEDESIGN - LOW ANGLE

The LOW ANGLE is a full carbon kayak touring paddle designed for smooth, efficient strokes. Available in one-piece or two-piece options, it offers three shaft flex indexes and oval indexing for both right- and left-handed paddlers.

**Weight: 0.65 kg/1.43 lb | Blade Size: 650 cm²/100 in² | Material: Carbon**

[WAVEDESIGN.COM](http://WAVEDESIGN.COM)

## LETTMANN - LIBERTY

A modern take on the traditional Eskimo paddle, designed for coastal and open-water paddling. Its long-profiled blade allows for effortless acceleration, even against strong winds, making it ideal for a flat paddling technique. Few paddles offer such efficient propulsion with so little effort. The silent strokes let you enjoy the coastal scenery just a little more than usual.

**Blade Length Small : 57cm | Blade Width Small:145 | Blade Length Large: 57cm | Blade Width Large: 160 cm | Weight: 0.99 kg/2.2 lb | Material: Carbon-Aramid | Sizes: Small . Large**

[LETTMAN.DE](http://LETTMAN.DE)

## LETTMANN - PROFILE TOUR

The shaft and blade are produced in a single process, eliminating the need for gluing and reducing the risk of faults or issues. The foam core of the blades delivers exceptional bending stiffness, making them incredibly durable. Surrounding aramid edges minimize abrasion and ensure greater impact resistance. The profiled blades enhance stroke efficiency by generating hydrodynamic lift, which stabilizes the blade underwater.

**Blade Length Small : 47cm | Blade Width Small:190 | Blade Length Large: 47cm | Blade Width Large: 203 cm | Weight: 0.99 kg/2.2 lb | Material: Carbon-Aramid | Sizes: Small . Large**

[LETTMAN.DE](http://LETTMAN.DE)

# WING PADDLES

## WAVEDESIGN - WING WILD

The WING WILD is a full carbon wing paddle designed for competition, ideal for whitewater, surfski, and flatwater. Available in four blade sizes, with one-piece or two-piece options (+5 cm, +10 cm), and three shaft flex indexes.

**Weight: 0.70 kg/1.53 lb | Blade Size: 750 cm²/116 in² | Material: Carbon | Blade Sizes: 685 . 720 . 750 . 785 . 820**

[WAVEDESIGN.COM](http://WAVEDESIGN.COM)

## WAVEDESIGN - WING EXTREME

The WING EXTREME is a full carbon teardrop wing paddle designed for sprint, marathon, and surfski paddlers, as well as those looking for a more technical paddle. It features a stable, powerful catch with a small offset angle for quick water entry and a high pitch angle. Most of its surface area is near the tip for maximum grip on the water. Available in four blade sizes, with one-piece or two-piece options (+5 cm, +10 cm), and three shaft flex indexes.

**Weight: 0.53 kg/1.17 lb | Blade Size: 685 cm²/106 in² | Material: Carbon | Blade Sizes: 685 . 720 . 750 . 785**

[WAVEDESIGN.COM](http://WAVEDESIGN.COM)

## LETTMANN - SPEED

Developed by world champions Klaus Lettmann and Lutz Lewowski, the Speed paddle embodies precision and innovation, inspiring both competitive athletes and recreational paddlers worldwide. Despite its reduced blade size, it delivers remarkable propulsion and efficient pressure build-up. The redesigned blade geometry shifts pressure points forward, enabling most of the force to build within the first few centimeters of each stroke. This not only stabilizes the paddle underwater but also reduces the effort needed to maintain control. Constructed with advanced techniques, the Speed paddle is exceptionally lightweight yet durable, making it a reliable choice for optimal performance in any setting.

**Blade Length xSmall : 49cm | Blade Width xSmall:14.9 cm | Blade Length Small : 49.5cm | Blade Width Small:15.4 cm | Blade Length Medium: 50cm | Blade Width Medium:16 cm | Blade Length M/L: 50cm | Blade Width M/L: 16.3 cm | Blade Length L/M : 52cm | Blade Width L/M:16.5cm | Blade Length Large: 52cm | Blade Width Large: 16.9 cm | Weight: 0.99 kg/2.2 lb | Material: Carbon-Aramid | Sizes: XS.S.M.M/L.L/M.L**

[LETTMAN.DE](http://LETTMAN.DE)

## MID RANGE

PROGRESSIVE TECHNOLOGY AND SHAPE, MID-RANGE PADDLES SUIT THE ADVANCED OR PROGRESSING PADDLER.

### WAVEDESIGN - ALL ROUND

The ALL ROUND is a recreational low-angle kayak paddle designed for a relaxed yet powerful stroke with smooth forward motion. It features a durable fiber shaft and a polypropylene blade reinforced with 20% fiberglass for added strength.

**Weight: 0.80 kg/1.76 lb | Blade Size: 640 cm<sup>2</sup>/99 in<sup>2</sup> | Material: Fiber shaft and blade made of PP polypropylene 20% reinforced GF fiberglass**

[WAVEDESIGN.COM](http://WAVEDESIGN.COM)

### LETTMANN - ARROW

The Arrow offers an excellent price-to-performance ratio, featuring a carbon-glass shaft and a Vario Joint. It is available in two lengths, making it suitable for both touring and sea kayaking enthusiasts.

**Blade Length: 47 cm | Blade Width: 17.5 cm | Weight: 1.05 kg/2.3 lb | Material: Shaft Glass/Carbon and Thermoplast Blades**

[LETTMAN.DE](http://LETTMAN.DE)

### VE PADDLES - GLASS FARA PADDLE

A lightweight fiberglass touring paddle with excellent water feel. The mid-sized blade suits a higher-angle stroke, making it ideal for day tours or coastal play. Providing smooth power on both blade faces, the pronounced catch and low swing weight enhance endurance. VE's pre-preg fiberglass layup ensures a highly durable finish, complemented by a stylish polyester dye-sub layer. The fiberglass shaft adds flex for improved in-water feel and reduced arm fatigue.

**Length: 200-210 cm . 210-220 cm . 220-230 cm . 230-240 cm + custom length | Feather: Adjustable 0°-90° | Shaft: Glass (carbon option available) | 2-piece adjustable straight shaft | 650 cm<sup>2</sup>: blade area**

[VEPADDLES.COM](http://VEPADDLES.COM)

### PALM EQUIPMENT - DRIFT PRO 2-PIECE PADDLE

The Drift Pro 2-piece paddle features a lightweight fiberglass shaft with adjustable angle and length for on-the-go customization. Durable and great value, it has an asymmetric blade ideal for touring, sit-on-tops, or inflatable kayaks.

**Sizes: 210-220 cm . 220-230 cm . 230-240 cm | Colors: Teal**

## ENTRY LEVEL

MADE IN A VARIETY OF SHAPES, ANGLES AND SIZES WITH PRICING ACCESSIBLE TO ALL PADDLERS.

### LETTMANN - TOURIST

The robust and maintenance-free Tourist is a top choice for rentals, schools, and clubs.

**Blade Length: 47 cm | Blade Width: 17.5 cm | Weight: 1.07 kg/2.4 lb | Material: Shaft Aluminum and Thermoplast Blades**

[LETTMAN.DE](http://LETTMAN.DE)

### LETTMANN - TRAMP

If you're looking for performance at a reasonable price, this solidly crafted paddle with a grooved blade is the perfect choice. It sits cleanly in the water, can be guided precisely, and is extremely robust.

**Weight: 0.64 kg/1.4 lb | Material: Shaft Aluminum and Thermoplast blades**

[LETTMAN.DE](http://LETTMAN.DE)

## KAYAK POLO

### LETTMANN - SWORD

The Barely Legal paddle is fully field-approved and ready for action. Its profiled blade delivers exceptional propulsion and pressure during draw strokes, while the enhanced profiling significantly boosts strength and durability.

**Blade Length: 46.5 cm/18.5" | Blade Width: 20 cm/7.9" | Weight: 0.87 kg/1.9 lb | Material: Carbon-Aramid | Sizes: Small . Large**

[LETTMAN.DE](http://LETTMAN.DE)

### LETTMANN - POLO

Better than any doping—and completely legal—the Polo paddle represents peak strength and reliability. Its foam core blade ensures a lightweight yet robust design, while optimal profiling enhances performance and propulsion. The large blade area is perfect for goalkeepers, and the reinforced edge adds exceptional stability and durability.

**Blade Length: 45 cm/17.7" | Blade Width: 20 cm/7.9" | Weight: 0.9 kg/2.0 lb | Material: Carbon-Aramid | Sizes: Small . Large**

[LETTMAN.DE](http://LETTMAN.DE)

## GREENLAND STYLE PADDLES

GREENLAND STYLE PADDLES ARE LONG AND NARROW WITH UNFEATHERED BLADES.

### EASTPOLE PADDLES - NANOOK BONEEDGE GLOW

The NANOOK BONE EDGE GLOW is inspired by the traditional West Greenland paddle, featuring mild shoulders transitioning from shaft to blade and rounded tips as wide as the blade itself. Crafted from lightweight, rot-resistant western red cedar with pine strips on the shaft for added stiffness, it offers a natural, warm grip, even when wet. Finished with tung oil, the paddle ensures excellent handling. The BONE EDGE, a durable epoxy mixture, reinforces the blades for added resistance to wear. The GLOW feature absorbs sunlight or artificial light, emitting a soft glow for up to 5-6 hours, with a recharge time of just 20-30 minutes. Designed for smooth paddling, the NANOOK reduces muscle fatigue and strain, making strokes effortless and silent. It also enhances bracing and rolling, allowing paddlers to explore with ease and precision.

**Length: 210-230 cm/6'11"-7'7" | Weights: 700-900 g/24.7-31.7 oz | Material: Traditional wooden Greenland paddle made of western red cedar | Features: BoneEdge mimics traditional whale bone, offering greater strength | Glow Duration: 5-6 hours | Recharge Time: 20-30 minutes**

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

NEW  
2025

### EASTPOLE PADDLES - NANOOK2 BLACKBONE

The NANOOK2 BlackBone is a two-piece Greenland paddle inspired by the traditional West Greenland design, featuring mild shoulders from shaft to blade and rounded tips as wide as the blade. Made from lightweight, rot-resistant western red cedar with signature pine strips on the shaft for added stiffness, it offers a warm, natural grip, even when wet, thanks to its tung oil finish. The innovative split system, developed by Kayak Sport, uses a compact oval carbon-reinforced plastic joint that preserves the paddle's natural feel. This system allows easy disassembly into two equal parts—115 cm for a 220 cm paddle and 120 cm for a 230 cm version—making it convenient to transport and store. Designed to reduce fatigue and strain on muscles and joints, the NANOOK2 ensures effortless, silent strokes while enhancing bracing and rolling techniques, making it ideal for extended paddling adventures.

**Length: 215-225 cm/7'1"-7'5" | Weights: 700-900 g/24.7-31.7 oz | Feature: 2-piece traditional Greenland paddle | Material: Wooden BlackBone and plastic split system reinforced with carbon microfiber.**

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

NEW  
2025

### EASTPOLE PADDLES - NANOOK2

The Nanook2 is a two-piece Greenland Paddle made in the shape and size of a traditional west-greenland paddle. The new split system is an oval carbon-reinforced plastic paddle joint for Greenland paddles made by Kayak Sport.

**Length: 215 . 220 . 225 cm | Kayak Sport Split System**

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

### EASTPOLE PADDLES - ISIGAA BONEEDGE GLOW

Traditional diamond-shaped wooden Greenland paddle with extra strong BoneEdge tips. It can glow in the dark.

**Length: 210 . 215 . 220 . 225 . 230 cm**

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

## EASTPOLE PADDLES - NANOOK TIP

Traditional oval-shaped wooden Greenland paddle with hardwood tips.

**Length: 210 . 215 . 220 . 225 . 230 cm**

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

## EASTPOLE PADDLES - ALEUTIAN PADDLE

The Aleutian paddle is a solid western red cedar, with an embedded layer of carbon that provides the paddle with significant strength and stability. The carbon lamination of this Aleutian paddle uses innovative material and processing science developments from a University laboratory. Probably the best cruising paddle ever.

**Length: 220 . 225 . 230 . 235 . 240 cm**

[EASTPOLEPADDLES.COM](http://EASTPOLEPADDLES.COM)

## KAJAK SPORT - INUKSUK

The Inuksuk is our flagship paddle, a handcrafted West Greenland-style paddle made in Finland. Solid, strong yet light, full carbon core paddle with a stunning matt finish. Well-balanced construction with a buoyant blade and an oval loom creates a light and effortless feel. Smooth and well-rounded thin edges allow for a quiet catch and confident stroke. The Inuksuk is equipped with a unique Kajak Sport oval shaft ferrule to allow easy split and length adjustment.

**Weight: 0.8 kg/1.8 lb | Material: Full Carbon**

[KAJAKSPORT.FI](http://KAJAKSPORT.FI)

## SELECT PADDLES - X.GORM

A traditional carbon paddle, the X.Gorm is designed with the very best in composite technology. Its thin 3mm edges offer precision, silence and comfort. Fully adjustable from 215 to 230 cm, the X.Gorm is still easy to forget, weighing in at less than 700gr.

**Adjustable Length: 215-230 cm/7'1"-7'7" | Blade Size: 550 cm²/85 in² | Oval Shaft: 36.2x29.2 mm/1.4"x1.1" | Dimensions: 85x8.8 cm/33.5"x3.5" | Composition: Hollowtech Prepreg Carbon**

[SELECT-PADDLES.COM](http://SELECT-PADDLES.COM)

## HIGH END

LIGHTWEIGHT CONSTRUCTION AND ADVANCED TECHNOLOGY CREATE A HIGH-PERFORMANCE PADDLE.

### WERNER PADDLES - JOURNEY

Our handcrafted wooden shaft is paired with a lightweight, buoyant carbon fiber blade. The Journey Carbon's shaft showcases a stunning blend of triple-laminated poplar and a symmetrical walnut grip, offering the familiar comfort of wood. The tapered, oval-shaped shaft is coated with polyurethane for enhanced durability against the elements.

**Length (in): 50 . 51 . 52 . 53 . 54 . 55 . 56 . 57 . 58 . 59 . 60 . 61 . 62 | Shaft Option: Straight | Pieces: 1 Piece | Weight: 681 g/24 oz | Length Range: 114-163 cm/45"-64" | Blade Surface Area: 710 cm²/110 in² | Blade Length x Width: 47x20 cm/18.5"x8"**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

### VE PADDLES - OFFSIDE GLASS CANOE PADDLE

Lightweight with exceptional water feel, this midsized blade delivers power with a pronounced catch while maintaining a low swing weight to support endurance.

**Length: Uncut 170 cm + Custom Length | Shaft: Carbon . Glass | 1-Piece . 2-Piece Adjustable Straight Shaft | 745 cm²: Blade Area**

[VEPADDLES.COM](http://VEPADDLES.COM)

### VE PADDLES - OFFSIDE CARBON CANOE PADDLE

A touring canoe blade designed for longer journeys, featuring a smaller blade area compared to the Pro Canoe. The rounded edges ensure smoother knifing and control strokes, making it a versatile option for both whitewater and touring use.

**Length: Uncut 170 cm + Custom Length | Shaft: Carbon . Glass | 1-Piece . 2-Piece Adjustable Straight Shaft | 745 cm²: Blade Area**

[VEPADDLES.COM](http://VEPADDLES.COM)

### LETTMANN - PERFECT PRO SL

Light, durable, and powerful. The profiled and grooved blade of the Perfect Pro SL allows for steering and forward strokes like no other. Whether for slalom, white water, or touring sports, with the Perfect Pro SL, you're always ahead.

**Blade Length: 49 cm/19.3" | Blade Width: 20.5 cm/8.1" | Weight: 0.69 kg/1.5 lb | Material: Carbon-Aramid**

[LETTMAN.DE](http://LETTMAN.DE)

### WAVEDESIGN - CANOA THOR

The CANOA THOR is a full carbon canoe paddle with an epoxy foam core, designed for downriver and sprint paddling. It offers a perfect balance of versatility, lightweight performance, and durability. The blade features a tough, durable core for maximum efficiency and power.

**Weight: 0.59 kg/1.30 lb | Blade Size: 815 cm² | Material: Carbon | Blade Sizes: 22 . 22.5 . 23**

[WAVEDESIGN.COM](http://WAVEDESIGN.COM)

## MID RANGE |

### TAHE - RIVER EVO PFVM

This 3-piece canoe paddle is crafted with a polypropylene fiberglass blend, reinforced with a 10% mineral charge from oyster shells to enhance durability. The blade and shaft are made from 70% recycled PP material sourced from our own production. Designed for eco-conscious paddlers, this paddle offers solid performance while minimizing environmental impact. Ideal for those who prioritize sustainability and responsible paddling.

**Length:** 150 cm/59" | **Weight:** 835 g/29.5 oz | **Material:** Aluminum . PFVM | **Colors:** Grey

[TAHESPORT.COM](https://tahesport.com)

### PALM EQUIPMENT - ALBA PRO CANOE PADDLE

The feel of wood with the durability of plastic, in a great all-round canoe paddle. Light in the water thanks to the buoyant foam core blade. The ground fiberglass shaft is great to handle and with the comfortable asymmetric T-grip you have the durability and control that you need for flat or moving water.

**Length:** 140 . 150 . 160 . 170 cm (uncut) | **Colors:** Cobalt

[PALMEQUIPMENTEUROPE.COM](https://palmequipmenteurope.com)

### VE PADDLES - GLASS OFFSIDE PADDLE

Lightweight with a great water feel this mid-sized blade provides power with a pronounced catch, while keeping swing weight low helping endurance.

**Length:** uncut 170 cm + custom length | **Shaft:** carbon, glass | 1-piece . 2-piece adjustable straight shaft | **Blade Area:** 745 cm²/115 in²

### WERNER PADDLES - STEALTH

Designed and tested in close collaboration with Dane Jackson and some of the world's best paddlers, the Stealth is Werner's latest advanced race paddle. It features a forward blade design with a buoyant profile and slender edges, minimizing resistance during entry and exit.

**Length (cm):** 194 . 197 . 200 . 203 . 206 | **Feather Angle:** R30 . R45 | **Diameter:** Standard  
**Shaft Option:** Straight | **Pieces:** 1 Piece | **Weight:** 836 g/29.5 oz | **Length Range:** 162-230 cm (in 1 cm increments) | **Feather Angle:** Fixed . L or R . 0 to 90° in 5-degree increments |  
**Blade Surface Area:** 700 cm² | **Blade Length x Width:** 45.2x20 cm/17.8"x7.9"

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

### AQUA BOUND - AERIAL MINOR FIBERGLASS

Expect more from fiberglass blades with bold durability and patent-pending Lam-Lok™ protection. Lam-Lok™ mechanically bonds blade layers with aramid reinforcement, greatly extending the paddle's life by resisting delamination, abrasion, and impact. Blades with Lam-Lok™ are 5-10x more resistant to delamination than those without it. Available in fixed or adjustable lengths, various offset angles, straight or crank shafts, and 1-, 2-, and 4-piece options.

**Fixed Lengths:** 191 cm/6'3" to 203 cm/6'8" in 3 cm/1.2" increments | **Adjustable Lengths:** 191 cm/6'3" to 205 cm/6'9" with 5 cm/2" of adjustability | **Blade Size:** 645 sq. cm/100 sq. in | **Weight:** 1150 g/40.6 oz - 1190 g/42 oz | **Shaft Options:** Straight or crank | **Shaft Material:** Carbon spread tow weave with slight grippy texture | **Blade Material:** Compression-molded fiberglass with aramid stitching | **Pieces:** 1pc . 2pc . 4pc

[AQUABOUND.COM](http://AQUABOUND.COM)

### LETTMANN - ERGONOM PRO WW

Our Ergonom Pro WW Extrem is the sturdiest whitewater paddle ever made. Its stiffness, combined with excellent pressure build-up and outstanding handling, makes it a unique tool, especially for creek whitewater. The ovalized, ergonomic shaft provides supreme handling, while the profiled paddle blades deliver extraordinary propulsion. Not only is the Ergonom Pro WW Extrem highly effective, but it also offers exceptional maneuverability; even with the slightest stroke, you are in control of every movement.

**Blade Length:** 47 cm/18.5" | **Blade Width:** 20.3 cm/8" | **Weight:** 0.99 kg/2.2 lb | **Material:** Carbon-Aramid | **Sizes:** Large . Small

[LETTMANN.DE](http://LETTMANN.DE)

### LETTMANN - NITRO WW

Now, many years after introducing our ergonomic shaft, we want to cater to those who prefer a straight shaft. Therefore, we created the Nitro, a paddle that closely mimics the advantages of our ergonomic design. With the Nitro, we positioned the blade further forward to achieve a more efficient stroke. This adjustment not only improves pressure build-up but also shifts the pressure point to the front, significantly reducing the typical fluttering associated with straight shaft paddles.

**Blade Length:** 47 cm/18.5" | **Blade Width:** 20 cm/7.9" | **Weight:** 0.99 kg/2.2 lb | **Material:** Carbon-Aramid | **Sizes:** Large . Small

[LETTMANN.DE](http://LETTMANN.DE)

## PRIJON - FINNA

This high-end carbon foam-core paddle features an all-around Dynel edge and an increased blade-to-shaft offset for maximum performance. Its forward-drop shape design provides a powerful catch, stabilizing strong forward strokes even in turbulent conditions. Our new carbon-fiberglass hybrid shaft, with double ovalization and a slightly textured surface, offers enhanced grip and the robust stability that demanding whitewater paddlers seek. The synergy of this shaft with the foam-core blades ensures highly direct and efficient power transmission. Available in both straight and bent shaft options, each also offered with a stainless-steel joint system.

**Length: 190 - 207.5 cm/6'3" - 6'9" (2.5 cm steps) | Weight: 950 g/2.1 lb | Blade size: 733 cm²**

[PRIJON.COM](http://PRIJON.COM)

## VE PADDLES - FLYTE GLASS PADDLE

The Flyte features an aggressive catch that rewards initiating the stroke further forward. The blade's width gradually tapers toward the neck, providing a smoother feel during the later parts of the stroke. This design is inspired by slalom paddling.

**Length: 194 cm . 197 cm . 200 cm + Custom Length | Feather: 0° . 30° . 45° + Custom Feather | Shaft: Glass (Carbon and Carbon Crank Shaft Options Available) | 1-Piece (2-Piece Adjustable Straight Shaft Available) | 700 cm²: Blade Area**

[VEPADDLES.COM](http://VEPADDLES.COM)

## WERNER PADDLES - DOUBLE DIAMOND

Double Diamonds always serve up the best runs of the day. The Double Diamond is the ultimate paddle for serious play boaters, offering Bomber strength and reliability no matter what trick you're performing. We were there for the birth of play boating, and our design innovations have kept us at this elite level ever since.

**Blade Length x Width: 47.75x19.25 cm/18.8"x7.6" | Length Range: 188-203 cm/74.2"-80" (in 1 cm increments) | Feather Angle: Fixed L or R, 0-90° in 5° increments | Blade Surface Area: 683 cm² | Weight: 1084 g/38.25 oz | Shaft Option: bent, straight | Pieces: 1 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

## WERNER PADDLES - ODACHI

The cavalry sword of the samurai, designed specifically for racing as it was for battle. Created from the ground up for downriver and creek racing, this paddle is built to handle the toughest courses. As race courses are set on increasingly challenging runs, we want to ensure that going fast doesn't mean worrying about your paddle.

**Blade Length x Width: 49x20.5 cm/19.3"x8.1" | Length Range: 190-203 cm/74.8"-80" (in 1 cm increments) | Feather Angle: Fixed L or R, 0-90° in 5° increments | Blade Surface Area: 735 cm² | Weight: 1022 g/36 oz | Shaft Option: bent, straight | Pieces: 1 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

## WERNER PADDLES - PLAYER

Show off your latest moves, just like the Player you are. Developed alongside its larger counterpart, the Side Kick, the Player was a major innovation for play boaters, setting the standard with downturned blades. This Werner design innovation provides immediate directional control in rudder and draw strokes, whether you're surfing or setting up today's most advanced tricks. On the wave or throwing downriver, we're along for the ride.

**Blade Length x Width: 46x20.75 cm/18.1"x8.2" | Length Range: 185-200 cm/72.8"-78.7" (in 1 cm increments) | Feather Angle: Fixed L or R, 0-90° in 5° increments | Blade Surface Area: 690 cm² | Weight: 1021 g/36 oz | Shaft Option: bent, straight | Pieces: 1 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

## WERNER PADDLES - POWERHOUSE

Physical power plus paddle power take on the power of the river. Watch almost any creek boating video or footage of paddlers being swallowed by massive holes amidst canyon walls. Now, what paddle do they have? Trusted on the hardest runs in the world and by those tackling the toughest lines on their local rivers, Werner's river running paddles deliver unmatched performance. The Powerhouse, along with its smaller counterpart, the Sherpa, offers bomber reliability—tested and proven where it matters most.

**Blade Length x Width: 48x20 cm/18.9"x7.9" | Length Range: 188-203 cm/74.2"-80" (in 1 cm increments) | Feather Angle: Fixed L or R, 0-90° in 5° increments | Blade Surface Area: 720 cm² | Weight: 1035 g/36.5 oz | Shaft Option: bent, straight | Pieces: 1 Piece**

## WERNER PADDLES - SHERPA

Without their help, many of the great first descents in Nepal, Tibet, India, and China would have never been possible. Watch most creek boat videos today or footage where the paddler is swallowed by massive holes amidst canyon walls. What paddle do they have? Trusted on the hardest runs in the world and by those tackling the toughest lines on their local runs, are the Werner river running paddles. The Sherpa and its larger counterpart, the Powerhouse, offer Bomber reliability, tested and proven where it counts.

**Blade Length x Width: 46x19.5 cm/18.1"x7.7" | Length Range: 185-200 cm/73"-78.7" (in 1 cm increments) | Feather Angle: Fixed L or R, 0-90° in 5° increments | Blade Surface Area: 680 cm² | Weight: 1021 g/36 oz | Shaft Option: bent, straight | Pieces: 1 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

## WERNER PADDLES - SHO-GUN

A legendary figure in Japanese culture, Sho-Gun "General" leads your charge down the river. The Sho-Gun features our most advanced technology in this river running paddle. As powerful as its name suggests, the rivers where paddlers take the Sho-Gun often require some aggression to navigate each horizon line. Decades of experience have led us to create the chosen paddle for many at the top of their game.

**Blade Length x Width: 48x20 cm/18.9"x7.9" | Length Range: 188-203 cm/74.2"-80" (in 1 cm increments) | Feather Angle: Fixed L or R, 0-90° in 5° increments | Blade Surface Area: 711 cm² | Weight: 1091 g/38.5 oz | Shaft Option: bent, straight | Pieces: 1 Piece**

[WERNERPADDLES.COM](http://WERNERPADDLES.COM)

## WERNER PADDLES - STIKINE

Canada's "Grand Canyon" of the Stikine sets the bar for Class V wilderness runs. Respect to all who make the pilgrimage. The Stikine uses our most advanced technology in this river running paddle. Decades of testing on the river have led us to designs worthy of this paddle's namesake. Combined with our Bomber construction for confidence when the river fights back, it's no wonder it is the paddle trusted by the world's best.

**Blade Length x Width: 46x19 cm/18.1"x7.5" | Length Range: 185-200 cm/73"-78.7" (in 1 cm increments) | Feather Angle: Fixed L or R, 0-90° in 5° increments | Blade Surface Area: 656 cm² | Weight: 1042 g/36.75 oz | Shaft Option: bent, straight | Pieces: 1 Piece**

## LETTMANN - PROFILE WW

The profiled blade, combined with a straight shaft, guarantees excellent propulsion in all types of whitewater conditions. Whether you need power in whitewater or flatwater, the Profile delivers without compromise. Its balanced yet powerful propulsion will help you navigate various situations effortlessly. Pull and round strokes provide such an exceptional grip that you'll find yourself needing only half the strokes you would normally take. The paddle's strength is matched only by its exceptional handling.

**Blade Length: 47cm/18.5" | Blade Width 20cm/7.9" | Width: 20 cm/7.9" | Weight: 0.99 kg/2.2 lb | Material: Carbon-Aramid | Sizes: Small . Large**

# WHITEWATER

## MID RANGE

PROGRESSIVE TECHNOLOGY AND SHAPE, MID-RANGE PADDLES  
SUIT THE ADVANCED OR PROGRESSING PADDLER.

### VE PADDLES - CREEKER GLASS 4-PIECE PADDLE

Ideal as a spare, this four-piece Creeker paddle can be broken down for easy storage in the back of your boat or packraft and adjusted for left or right-handed use. It features a glass prepreg blade, a strong fiberglass shaft with an aluminum adjustable connector in the center, and button connectors at each blade. With a narrower, mid-sized blade tapering toward the neck, the Creeker offers gradual power transfer throughout the stroke, making it ideal for long days on the river. A heavy-duty split connector for whitewater securely allows for length and feather adjustments on the go. It is 360-degree adjustable, with markings for 90° feather adjustment and 10 cm of length adjustment.

**Length: 194-204 cm . 210-220 cm | Feather: Adjustable | Shaft: Glass | 4-Piece | 700 cm²: Blade Area**

[VEPADDLES.COM](http://VEPADDLES.COM)

### SELECT PADDLES - WILD ALUM

Our WILD aluminum paddle provides all the advantages sought by the most demanding whitewater kayakers. Its fine edges and its great lightness offer responsiveness and finesse of paddling without sacrificing its great resistance.

**Blade Size: 675 cm²/104.9 in² | Dimensions: 49x20.5 cm/19.3"x8.1" | Materials: Blades: Fiberglass Aluminum . Straight Handle: Carbon Fiber Blend . Ergonomic Handle: Carbon Fiber | Available Options: Straight or Ergonomic Handle . Fixed or Adjustable Handle**

[SELECT-PADDLES.COM](http://SELECT-PADDLES.COM)

### PRIJON - SAVA

The perfect combination of lightweight design and durability, this whitewater paddle offers excellent handling and immediate power with every stroke. The midrib on the front ensures stability during water entry, while the foam-core rib on the back enhances stiffness for powerful performance. NEW: Now available with the SteelLock stainless steel adjustable ferrule. Designed for the toughest whitewater conditions, the SteelLock features a stainless-steel clamping ring for exceptional stability and durability. The ferrule allows seamless angle adjustments and length extensions of up to 10 cm, making it adaptable to your needs.

**Length: 190-207.5 cm/6'3"-6'9" (2.5 cm steps) | Weight: 980 g/34.6 oz | Blade Size: 730 cm²**

[PRIJON.COM](http://PRIJON.COM)

### SELECT PADDLES - WILD COLORED

Little sister of the carbon WILD, the colored WILD adds a touch of fun with its 3 new colorful shades. The WILD colored is the best option for the paddler who relies on a stylish paddle that is visible in all sailing conditions.

**Blade Size: 675 cm²/104.9 in² | Dimensions: 49x20.5 cm/19.3"x8.1" | Shaft Option: Bent . Straight | Materials: Blades: Fiberglass . Straight Handle: Carbon Fiberglass . Ergonomic Handle: Carbon Fiber | Colors: Blue . Green . Red**
